54x74 bed size

Price: \$\$\$Type: memory foamHeight: 12 inchesThe Loom & Leaf features three layers of foam, including a cooling gel top layer, premium memory foam transition layer, and high-density foam support core. It’s encased in a quilted organic cotton cover.Saatva is known for their high quality mattresses, and this one doesn’t disappoint.All their foams are CertiPUR-US certified, meaning they’re free of harmful chemicals. This model also comes in a plush firm (medium-firm) or firm options. Both contour well and have the kind of breathability that reduces overheating.The Loom & Leaf includes a 180-night sleep trial, 15-year warranty, and white glove delivery, bringing it to your room of choice. Best split king mattressSaatva Solaire MattressPrice: \$\$\$Type: adjustableHeight: 13.5 inchesCustomized luxury starts here. Seriously, couples who cannot get comfortable will appreciate the ability to adjust their side of the bed, from the firmness to the incline.Each side of the Solaire has its own air chamber and control. Pump it up, let it out, change the incline, and your partner will never know the difference. Needless to say, it works with an adjustable bed frame.Saatva offers free mattress removal and setup, something that doesn’t come with every mattress. Sleepers find the Solaire to be incredibly comfortable, especially for couples. There’s no bickering about what kind of bed to buy when you can customize your side.The Solaire features a 180-night sleep trial, free white glove delivery (yes!), and a 25-year warranty.Best king-size mattress for back painHelix Midnight LUXEPrice: \$\$\$Type: hybridHeight: 14 inchesThe LUXE’s zoned lumbar support contours to the back, providing support at low pressure points and cushioning at high pressure points. It’s specifically designed for people who toss and turn, which is perfect if back pain keeps you from getting comfortable at night.Sleepers report that the LUXE is true to its medium-firm rating, offering a balance between softness and support. Back sleepers who like a little cushioning will appreciate the extra plushness of the pillow top.The lumbar support does well for side sleepers, yet it’s firm enough that the hips of stomach sleepers won’t sink into the mattress. Overall, it’s a good option for couples who struggle with comfort or back pain.The Helix Midnight LUXE comes with a 100-night sleep trial, 15-year limited warranty, and free shipping within the United States.Best king-size innerspring mattressThe WinkBedPrice: \$\$Type: hybrid (almost innerspring)Height: 14.5 inchesThis isn’t your grandma’s innerspring mattress, because technology. While we’re calling this an innerspring mattress, it’s technically a hybrid. If a mattress has at least 2 inches of foam on top of the coils, it’s in hybrid territory.Still the WinkBed’s single layer of cushioning foam makes it function much like a very comfortable, plush innerspring.A cushy, quilted Euro pillow top and cooling gel-infused foam cover the pocketed coils. The coils relieve pressure and bring springiness to the mattress. Extra edge support keeps you from rolling off of the mattress and enhances durability.Sleepers who like innerspring mattresses typically love the WinkBed. It tends to run a little on the firm side of medium-firm, but that’s pretty common for hybrids with few cushioning layers.The Winkbed includes a 120-night sleep trial, lifetime warranty, and free shipping and returns.Best hybrid king-size mattressBrooklyn Bedding Aurora HybridPrice: \$\$\$Type: hybridHeight: 13 inchesFive layers — four foam, one coil — come together in one of the best hybrids around. You can purchase it in three different firmnesses, giving you some customization options.The Aurora also features several layers of foam with cooling features. A phase change foam, which becomes more liquid as it absorbs heat, transfers heat to a copper-infused foam layer that moves heat further away from the body.The foams contour to the body while the pocketed coils continue pressure relief in high-pressure areas. Sleepers describe this mattress as “plush pressure relief,” even in the firm model. It’s gentler on the body than many hybrids, offering an excellent balance between foam contouring and coil support.The Aurora Hybrid comes with a 120-night sleep trial, 10-year warranty, and free shipping in the lower 48 states.Best value king-size mattressTuft & Needle MintPrice: \$\$Type: memory foamHeight: 12 inchesThe Tuft & Needle Mint offers comfort that feels well beyond its price point. Three foam layers combine for a good balance of support and cushioning, making it a good option for all sleep positions.The T&N adaptive foam is highly responsive, so you don’t ever feel stuck. This mattress also features cooling graphite and gel bead technology to suck up that extra heat and prevent overheating.Sleepers consistently find that the Mint strikes the right balance between price and comfort. It also caters well to couples with different preferred sleep positions. Plus it’s made of eco-friendly certified foams. The Mint comes with a 100-night sleep trial, a 10-year limited warranty, and free returns and shipping.Best latex king-size mattressIdle Latex HybridPrice: \$\$\$Type: latex hybridHeight: 13 inchesLatex mattresses are the most eco-friendly sleep options on the market. And this one ranks high on sustainability, with certified organic cotton, wool, and latex. The Idle comes in many varieties, including a Dunlop or Talalay latex option. Dunlop or Talalay, you say? That’s the type of latex, or more precisely, the method used to make the latex. Dunlop has a denser structure, creating a firmer mattress. Talalay, is more aerated, so the resulting latex is spongier and springier.You can choose either type of latex, plus pick the firmness level, including a flipable model with a different firmness on either side of the mattress. Sleepers report great cushioning and contouring with a little bit of bounce from the coils and latex. Sleepers of all sleep positions could find comfort on this model. However, it’s not plush, so strict side sleepers may not get the pressure relief they need.The Idle includes one of the most impressive sleep trials at a full 18-months, a lifetime warranty, and free shipping and returns. Best king-size mattress for stomach sleepersLeesa Original MattressPrice: \$\$Type: memory foamHeight: 10 inchesThe Leesa Original Mattress features an all-foam structure with a memory foam transition layer for extra pressure relief. The foams also absorb motion. If you have a restless partner, you’re less likely to get disturbed. The foam combo offers a firmer feel than many other all-foam mattresses, which can help prevent the hips of stomach sleepers from sinking too deeply into the mattress and putting extra pressure on the lower back. The Leesa is also a good option for back sleepers who prefer firmer support.This one includes a 100-night sleep trial, free delivery, and a 10-year warranty.Best king-size cooling mattressPurple HybridPrice: \$\$\$Type: hybridHeight: 11 InchesThe Purple Hybrid features Purple’s spongy, hyper-elastic gel grid. This 2-inch top layer lets heat and moisture move away from the body and out of the mattress, which helps keep you cool. (It works so well that you may need extra blankets and flannel sheets in the cold winter months.)But cool sleep experience aside, this mattress also comes with excellent cushioning and contouring. Side and back sleepers will appreciate how well the Purple grid adjusts to their unique curves. However, the pocketed coils offer a bit more support than the Purple Original’s foam core.Sleepers, especially hot sleepers, love the Purple Hybrid. The consensus seems to be that the grid’s feel takes time to get used to. But once you do, it’s hard to sleep on anything else.The Purple Hybrid includes a 100-night sleep trial, free shipping and returns, and a 10-year warranty.Best luxury king-size mattressBrentwood Home Oceano Luxury Hybrid MattressPrice: \$\$Type: hybridHeight: 14 inchesOh, the heavenly luxury of nine layers of mattress. The Oceano features a coil-on-coil support system. That means there’s a layer of micro coils on top of a coil support core. The comfort layers are made of organic cotton and wool over a layer of plant-based memory foam.All those coils target high-pressure areas around the shoulders and hips while supporting the low-pressure areas of the lower back, knees, and neck/head. The cotton and wool are certified organic, while the plant-based foam is free of harmful chemicals.Wool and cotton do a good job of wicking away heat and moisture, leaving sleepers comfortable. Back sleepers and those who frequently change positions are likely to find this model a comfortable fit.The Oceano features a 1-year sleep trial, 25-year limited warranty, and free shipping and returns.Best king-size mattress under \$600The AllswellPrice: \$Type: hybridHeight: 10 inchesThe Allswell is a starter hybrid mattress that provides good comfort at an entry-level price. Copper and charcoal-infused memory foam top layers absorb heat, transferring it away from the sleeper. (Copper is also used to reduce microbial growth. Which is awesome and also gross.)Sleepers appreciate the true medium feel of this mattress. It’s a great option for back and side sleepers on a budget. Stomach sleepers may find it a little soft, but for the price, it’s hard to beat.The Allswell includes a 100-night sleep trial, 10-year warranty, and free ground shipping.Best king-size mattress for people over 200 poundsBig FigPrice: \$\$Type: hybridHeight: 13 inchesThe Big Fig is designed specifically for people over 230 pounds. It can hold a maximum weight load of 1,000 pounds, so 500 pounds per partner. It combines a firmer design with four layers of foam over a pocketed coil support core.The gel, latex foam, and polyfoams contour to the body, enhance breathability, and relieve pressure. Their densities help support larger bodies.The latex gives the Big Fig a little more bounce, so bodies don’t get stuck in the foams. Finally, high-flex, 15-gauge coils relieve pressure but offer firmer support that helps prevent early breakdown or body indentations.This mattress is truly designed for bodies over 230+ pounds with dense foams and high-flex coils. It cools, cushions, and supports with materials that don’t break down under higher weights. However, if you’re under 230, chances are this model will feel too firm.The Big Fig includes a 120-night sleep trial, 20-year warranty, and free shipping and returns.Best king-size mattress for side sleepersNolah Evolution 15Price: \$\$\$Type: hybridHeight: 15Side sleepers won’t suffer from overheating, which can be a serious sleep disruptor for anyone. The Nolah Evolution 15 offers a quilted, plush euro-top designed to draw heat away from the body. Heat absorption continues through a graphite foam layer and escapes out a vented heat escape gusset. See, super cool sleeping for side sleepers.But, for side sleepers, it’s the patented tri-zoned support coils that will make your hips and shoulders happy. The three zones relieve pressure through the shoulders and hips but support the waist, head, and knees, so you don’t wake up sore in the morning.The Nolah Evolution 15 includes a 120-night sleep trial, free shipping, and a lifetime warranty.Best eco-friendly king-size mattressEcoTerra Hybrid Latex MattressPrice: \$\$Type: latex hybridHeight: 11 inchesOur eco-friendly pick stacks up several third-party certifications, including certified organic latex, wool, cotton, and upcycled steel coils. But that wouldn’t mean anything if it weren’t also comfortable, which it is.An organic cotton cover quilted to organic wool wicks away moisture and cushions the body. The natural latex layer offers contouring, responsiveness, and cushioning over the highly-responsive upcycled coils. The price is reasonably affordable for an eco-friendly mattress of any material, let alone latex.The EcoTerra works well for those who prefer pressure relief without deep contouring. The latex/coil combination doesn’t trap heat, so sleepers stay cool and comfortable. FYI, this tends to be a bouncy mattress that may not work well for restless sleepers.The EcoTerra includes a 90-night sleep trial, 15-year warranty, and free shipping and returns.Best king-size mattress for couplesSleep Number c4 360 Smart BedPrice: \$\$\$Type: adjustableHeight: 12 inchesIf you want a premium mattress that lets you and your partner both get comfortable no matter what, the 350 c4 will do it. The bed is loaded with sensors that monitor your movements, adjusting the firmness of the bed as you move, so you get the right pressure relief even as your sleep position changes.You can control the firmness level on each side separately, including raising or lowering your head or feet. The c4 also includes a heated feet area for those who get chilled. This mattress offers the ultimate in customization, technology, and individual comfort. But you pay for it. Couples love the 350 c4, especially those who have different sleep preferences and need help falling and staying asleep. This mattress is an investment, but for some, it’s worth the money for the sleep quality.The 350 c4 includes a 100-night sleep trial, 15-year warranty, and home delivery that includes set up by authorized technicians. Home » Best Bed Sheets » Best King Size Bed SetsFinding the right bed set for your King size mattress will make your sleep (and your life) that much better. Purchasing one of these sets is like a one-stop shop for revamping your bed and creating a cohesive look for your bedroom.There’s some disagreement about what exactly should be included in a King size bed set. Some people say these sets should include a comforter, while others think it’s all about the sheets and pillowcases. Our perspective is that at a minimum, a King size bed set should include four pieces: a fitted sheet, a flat sheet, and two pillowcases. In some cases, these sets will include additional pieces (such as extra pillowcases). Check out our roundup to review some of the best King size bed sets around.Editor’s ChoiceKingBedSets CalDesignCalifornia Design Den 600-Thread-Count 100% Cotton Sheet SetPros: The set is made from high-quality materials in the form of 600 thread count, long-staple, 100% cotton in a sateen weave. The fitted sheet features a deep pocket that should fit tall beds. The set is OEKO-TEX Standard 100 certified and made in a LEED v4 Gold Certified and Certified WCA facility, which means it’s free of certain harmful chemicals and meets strong environmental and social standards. Given the quality of this bed set, it’s relatively budget-friendly. Cons: The set may need to go through several washings before achieving an ideal level of softness. The sheets are prone to wrinkling, which might annoy some people. California Design Den 600-Thread-Count 100% Cotton Sheet Set High-quality materials and an eco-friendly manufacturing process set apart the California Design Den 600-Thread-Count 100% Cotton Sheet Set. The fitted sheet’s deep pocket should accommodate most mattresses. ContenderKingBedSets ThreadmillThreadmill Home Linen 800 Thread Count 100% Cotton Bed Sheet SetPros: The fitted sheet features extra-deep pockets that should accommodate mattresses up to 18 inches deep. The set is made from extra-long-staple, 800 thread count, 100% cotton. The set is made in a facility that’s powered by solar and wind energy, so it has a lower eco-footprint than many options on this list.The sheets are thick and substantial and have a smooth, crisp feel. Cons: This set is on the pricier side and won’t be accessible to all budgets. Some users have reported that the sheets might shrink a bit in the wash. Threadmill Home Linen 800 Thread Count 100% Cotton Bed Sheet Set Extra-deep pockets and high-quality materials distinguish the Threadmill Home Linen 800 Thread Count 100% Cotton Bed Sheet Set. The 100% cotton set is made in a facility that’s powered by solar and wind energy. Best BambooKingBeds cosyhouseCosy House Collection Luxury Bamboo Bed Sheet SetPros: The inclusion of bamboo makes these sheets fairly soft and breathable, which should appeal to hot sleepers. The set is available in several solid colors, so you should be able to tailor the set to your bedroom decor. Strong elastic helps ensure these sheets stay snugly fitted to the bed even when you move around at night. Cons: These aren’t 100% bamboo. They’re made from 60% bamboo and 40% microfiber blend. The sheets are on the thinner side, so they don’t feel very luxurious and might not hold up super well long-term. Cosy House Collection Luxury Bamboo Bed Sheet Set Bamboo materials make the Cosy House Collection Luxury Bamboo Bed Sheet Set soft and breathable. The set is available in several solid colors, so there should be an option for most aesthetic tastes. Largest SetKingBeds siluchengShilucheng 6-Piece Bed Sheets SetPros: While most of the sets on this list consist of four pieces, this one adds on an additional two pillowcases for a total of six pieces. This is a fairly budget-friendly set, especially when you consider that you get six pieces instead of four. The sheets are made of double-brushed, 1,800-thread-count microfiber, which is soft to the touch. The fitted sheet features deep pockets that can accommodate mattresses up to 16 inches deep. Cons: The sheets are prone to wrinkling, which might not account.AestheticsYou’ll want to tailor your new bed set to your other bedding and your bedroom decor, which means this list needed to include a lot of different color options to suit different tastes. The sets on this list come in a wide range of colors and some patterns, so you should be able to find something that appeals to you.Comfort and FeelIf you’re going to be sleeping on and under different pieces of bedding, they need to be comfortable. But “comfort” is subjective. We included bed sets in a variety of weights and feels, from lightweight to heavyweight and soft to crisp. There should be an option for most preferences.CostKing bed sets can range in price from under \$40 to around \$100. We included sets from both sides of that spectrum to accommodate different price points.MaterialsThe materials used in a given bed set will play a big role in determining its weight, feel, and breathability. For instance, bamboo tends to be breathable, microfiber is usually soft to the touch, cotton can have a smooth, crisp feel, and so on.We also paid attention to how these materials were manufactured. In many cases, the bed sets on this list were made in eco-friendly, socially conscious, and/or health-conscious ways.Sleepopolis Buying TipsStill struggling to find the best King size bed set for you? To narrow down your choices, ask yourself the following:What material do you want? Do you have a strong preference between, say, bamboo, cotton, or microfiber? Different materials have their own feel and breathability, so take this into account while bed set shopping.What kind of feel do you prefer? Do you like crisp, cool sheets, or do you prefer your bedding soft and cozy? Your preferences when it comes to feel will help you shrink your pool of options.What’s your color preference? Some bed sets come in tons of solid colors, others come in patterns, and still others don’t offer much choice when it comes to design. If you have strong aesthetic preferences, this can also narrow down your search.Finding the right bed set for your King size bed will make every night of sleep more comfortable. That’s why it’s worth taking the time to find the best option for you. To do that, think about your budget along with your preferences when it comes to aesthetics, feel, and materials. These factors will help you zero in on the best bed set for your needs.Get the latest deals, discounts, reviews, and giveaways!
