In a different way or manner; otherwise: "Carol ... didn't know different until Elinor told her" (Ben Brantley)[Middle English, from Old French, from Latin diffrens, different-, present participle of differre, to differ; see differ.]Usage Note: The phrases different from and different than are both common in British and American English. The British also use the construction different to. Since the 18th century, language critics have singled out different than as incorrect when used before nouns and noun phrases, though it was well attested in the works of reputable writers. Traditionally, from is used when the comparison is between two persons or things: My book is different from [not than] yours. Note that noun phrases, including ones that have clauses in them, also fall into this category: The campus is different from the way it was the last time you were here. The Usage Panel is divided on the acceptability of different than with nouns and noun phrases, with a majority finding several of these constructions unacceptable. In our 2004 survey, 57 percent rejected the use of different than with a gerund in the sentence Caring for children with disabilities in a regular child-care setting is not new and, in many cases, is not particularly different than caring for other children. Roughly the same percentage (55) disapproved of the construction with a noun phrase containing a clause in The new kid felt that the coach's treatment of him was different than that of the other players who were on the team last year. Some 60 percent rejected the sentence New York seemed very different than Rome, where they'd been on good terms. There should be no complaint, however, when the object of comparison is expressed by a full clause: The campus is different than it was twenty years ago.American Heritage Dictionary of the English Language, Fifth Edition. (dfrnt, dfrnt) adj.1. partly or completely unlike2. not identical or the same; other; he always wears a different tie. 3. out of the ordinary; unusualUsage: The constructions different from, different to, and different than are all found in the works of writers of English during the past. Nowadays, however, the most widely acceptable preposition to use after different is from. Different to is common in British English, but is considered by some people to be incorrect, or less acceptable. Different than is a standard construction in American English, and has the advantage of conciseness when a clause or phrase follows, as in this result is only slightly different than in the US. As, however, this idiom is not regarded as totally acceptable in British usage, it is preferable either to use different from: this result is only slightly different from that obtained in the US or to rephrase the sentence: this result differs only slightly from that in the USCollins English Dictionary Complete and Unabridged, 12th Edition 2014 HarperCollins Publishers 1991, 1994, 1998, 2000, 2003, 2006, 2007, 2009, 2011, 2014 (dfr nt, dfr nt) adj. 1. not alike in character or quality; differing; dissimilar. 2. not identical; separate or distinct: three different answers. 3. various; several: Different people told me the same story. 4. not ordinary; unusual. [13501400; Middle English < Anglo-French < Latin] usage: Although it is frequently claimed that different should be followed only by from, not by than, in actual usage both words have occurred for at least 300 years and are standard in all varieties of spoken and written American English. From is more common today in introducing a phrase, but than is also used: New York speech is different from (or than) that of Chicago. Than is usually used to introduce a clause: The stream followed a different course than the map showed. In sentences of this type, when from is used instead of than, more words are necessary: a different course from the one the map showed. In British English to frequently follows different: The early sketches are very different to the later ones. Different in the sense unusual is well established in all but the most formal American English: The door in this theater is really different.
