Cdl test practice

Utah, home to the beautiful Glen Canyon and Fishlake National Forest, is one of the most beautiful and enjoyable states to drive in. A major producer of petroleum and mining, Utah companies are always looking to hire new truck drivers to help transport their goods across the country. Utah truck drivers most often travel along Interstate 15, through Provo, Salt Lake City, and Ogden. However, before you can travel these routes as a commercial driver, you will need to first pass the UT CDL exam and earn your Utah Commercial Driver's License (CDL). The test has proven to be challenging, and if you don't want to be part of the unlucky group that walks away from the DMV empty-handed, it's essential you prepare beforehand. Our free 2025 Utah CDL practice tests are designed to help you ace the official UT CDL exam. Why choose our UT CDL practice tests? Questions based on the latest 2025 Utah CDL manual Covers all CDL classes and endorsements Instant feedback to help you master the material While the state does publish a helpful CDL manual, it's equally important that you test your newly acquired knowledge. Our practice tests have been carefully designed to cover the very same content you'll find on the real exam. Use the handy progress tracker to see how well you're doing at any given moment while taking advantage of instant feedback and helpful explanations. Don't leave your future to chance—take the first steps toward your CDL now with a free UT CDL practice test! General Knowledge (150 questions) Start your journey here. Covers the essentials of safely operating a commercial vehicle in Utah. Unlimited attempts. Detailed explanations. Expect questions on vehicle checks, proper braking technique, fire prevention, visibility, space around your vehicle, stopping distance, and matching speed. Explore essential concepts including vehicle inspection, alcohol and driving, transporting cargo safely, inspecting cargo, air brakes, and important definitions. Designed to replicate the actual CDL test experience. 50 multiple choice questions chosen at random from our database. Each new attempt generates a new set of questions. The path towards a HazMat Endorsement starts here. Questions cover loading requirements, regulated products, document storage, tire inspection, and item descriptions. Passenger Vehicles (20 questions) Test your knowledge of key concepts including proper procedures at railroad crossings, effective use of mirrors, matching speed with traffic, and stopping distances. School Bus (20 questions) Master the key aspects of operating a school bus. This practice test covers crucial topics like approaching stops, matching speed, and transporting passengers safely. Air Brakes (25 questions) Begin testing your knowledge of air brakes here. Covers tractor valves, pressure gauges, spring brakes, dual air brakes, brake fading/failure, air storage tanks and more. Combination Vehicles (24 questions) Boost your understanding of coupling tractor semi trailers, trailer hand valves, rollover risks, and trailer air lines with this powerful practice test. Double/Triple Trailers (20 questions) Covers crucial topics including mastering proper steering techniques, coupling and decoupling trailers, navigating curves, managing space, and handling skids. Tanker Vehicles (30 questions) The path towards a Tanker Vehicles Endorsement starts here. Covers identifying tanker vehicles, outage, high center of gravity, bulkheads, and baffled/unbaffled tanks. Pre-Trip Inspection (9 questions) Covers overall vehicle safety, documentation checks, vehicle components, the brake system, and operational elements such as lights, signals, and controls. Get the latest (2025) official UT CDL Handbook. Test Format: Computer-based at Utah Driver License offices General Knowledge Test: 50 questions, need 80% to pass Permit Validity: 12 months Waiting Period: 14 days before skills test Languages: English only Fees: \$26.00 for CDL written tests Endorsement Fees: \$9.00 for most endorsements Retesting: Wait until next business day to retest The Utah CDL knowledge test is a test of your knowledge of commercial driving regulations. You must pass this test to get a Commercial Learner's Permit (CLP) which is required before you can take the skills test for full CDL. The test covers vehicle operation, safety regulations, traffic laws and safe operating procedures. It's taken electronically at Driver License offices throughout Utah. Questions cover federal regulations and Utah specific rules so you have the knowledge to operate commercial vehicles in Utah and across state lines if applicable. You need to take the test if you're: Getting your first CLP Adding a new endorsement Upgrading your CDL class (from Class B to Class A for example) Reinstating an expired CDL (over one year) Transferring a CDL from another state with new endorsements All applicants must take the general knowledge test plus additional tests for specific endorsements like Passenger (P), School Bus (S), Tank Vehicles (N), Hazmat (H), or Doubles/Triples (T). Each endorsement has its own test for that specific vehicle or cargo type. The test ensures commercial drivers have the knowledge to operate commercial vehicles safely. It verifies knowledge of regulations, safety practices, technical knowledge and emergency procedures. This helps maintain safety standards and reduces accident risks on public roads. Commercial vehicles can cause big damage in accidents because of their size and weight so proper knowledge and training is essential before operating these vehicles. The knowledge test is the first step in making sure you're ready for the responsibility of commercial driving. The test follows Federal Motor Carrier Safety Administration standards with Utah specific regulations. This ensures national consistency in commercial driver qualifications while addressing state specific requirements. Topics covered are general driving skills, air brake operations, combination vehicles and specific endorsements. This means your Utah CDL will be recognized throughout the United States and you can operate commercial vehicles across state lines (as long as you meet age and other requirements for interstate commerce). General Knowledge: 50 questions Air Brakes: 25 questions Combination Vehicles: 20 questions Passenger Endorsement: 20 questions School Bus Endorsement: 20 questions Hazmat Endorsement: 30 questions Tank Vehicles Endorsement: 20 questions Doubles/Triples Endorsement: 20 questions The questions are multiple choice with 4 possible answers for each question. The tests are designed to thoroughly test your knowledge of safety procedures, regulations and technical knowledge of commercial vehicles. Sample question: When checking your trailer connection you should make sure that: The fifth wheel is tilted upward There is no space between the upper and lower fifth wheel The kingpin is bent The apron is sitting on top of the fifth wheel Answer: B. There is no space between the upper and lower fifth wheel You must answer 80% of questions correctly on each test: General Knowledge: 40/50 Air Brakes: 20/25 Combination Vehicles: 16/20 Passenger Endorsement: 16/20 School Bus Endorsement: 16/20 Hazmat Endorsement: 24/30 Tank Vehicles Endorsement: 16/20 Doubles/Triples Endorsement: 16/20 Each test is scored separately and you must pass each one individually. If you fail one test but pass others you'll only need to retest the failed test. The test is only in English. Federal regulations require commercial drivers to read and speak English sufficiently to understand traffic signs, communicate with officials, complete records and understand shipping documents. This ensures all commercial drivers can safely navigate roadways, communicate with law enforcement and emergency services and properly handle documentation. There are no exceptions to this language requirement for CDL testing in Utah. No. You cannot use notes, electronic devices, reference materials or calculators during the test. Testing areas are monitored and using prohibited materials will result in test failure. All personal items must be stored in a designated area during testing. This includes: Cell phones and electronic devices Notes or cheat sheets Commercial Driver License manuals Reference materials of any kind Calculators (unless specifically authorized for certain questions) Using prohibited materials during testing could result in immediate disqualification and may affect your ability to test again in the future. There is no time limit but most applicants complete the general knowledge test in 60-90 minutes. Most endorsement tests take 30-45 minutes each. Plan accordingly if taking multiple tests in one visit: The Driver License Division provides sufficient time to complete the tests without rushing. If you have documented learning disabilities or other special needs, accommodations may be available with proper documentation. General Knowledge - Mandatory for all CDL applicants. Air Brakes - Required for driving vehicles with air brake systems. Combination Vehicles - Needed for operating Class A truck-trailer combinations. Passenger (P) Endorsement - Required for driving buses or passenger-carrying vehicles. School Bus (S) Endorsement - Needed to operate a school bus. Doubles/Triples (T) Endorsement - For towing two or three trailers. Tank Vehicles (N) Endorsement - Needed to haul liquids or gases in tanks. Hazardous Materials (H) Endorsement - Required for transporting hazardous cargo. Each test covers specific knowledge for that class of vehicle or type of operation. You only need to take the tests relevant to the type of commercial driving you plan to do. Sample question: When driving with air brakes what is brake lag? Time for brakes to wear out Time for air to flow through lines when brake pedal is pressed Time to move foot from accelerator to brake Time to pull parking brake Answer: B. Time for air to flow through lines when brake pedal is pressed General Knowledge: Vehicle inspection procedures, basic control, shifting gears, space management, night driving, adverse weather conditions, emergency procedures, cargo handling, accident procedures, fires, fatigue awareness and basic hazardous materials regulations. Air Brakes: System components and function, dual air brake systems, inspecting air brakes, proper use in various conditions, emergency stops, brake system failures and brake lag/fade. Combination Vehicles: Coupling and uncoupling procedures, inspection points, handling characteristics, rollover prevention, jackknife avoidance, turning techniques and backing procedures for combination vehicles. Passenger (P): Passenger loading and unloading procedures, emergency exits, passenger communication, accessibility requirements, disruptive passengers and railroad crossing requirements for passenger vehicles. School Bus (S): Student loading and unloading procedures, emergency evacuation, schools, railroad crossing, student management, danger zones and special equipment. Doubles/Triples (T): Coupling and uncoupling multiple trailers, handling characteristics during various maneuvers, inspection procedures, identifying and correcting handling problems and operating in adverse conditions. Tank Vehicle (N): Liquid surge and weight distribution effects on handling, baffled vs non-baffled tanks, loading/unloading procedures and special braking for partially full tanks. Hazmat (H): Hazardous materials classification and identification, documentation, loading/unloading procedures, driving rules, emergency response and security awareness. Study all relevant sections of the Utah CDL Manual for your license class and endorsements Take our free practice tests Create a study schedule over several weeks not cramming Make flashcards for difficult concepts and technical terms Focus extra time on challenging topics (air brakes, hazmat) Review pre-trip inspection procedures thoroughly Pay attention to Utah specific regulations and requirements Study vehicle systems and components until you understand how they work Familiarize yourself with all required documentation and procedures Consistent study over time is key not last minute cramming. Many applicants underestimate the technical knowledge especially for endorsements. Yes! Our free Utah practice tests will help you: Identify knowledge gaps Build confidence Simulate the actual test environment and format Track your progress Understand explanations for correct and incorrect answers Get familiar with the types of questions on the actual test Our practice tests cover all CDL test categories and are updated regularly to reflect current testing standards. Using practice tests has been shown to increase first time pass rates. Study for 2-3 weeks before your test date Understand concepts not just memorize answers Take our practice tests to focus on weak areas Get plenty of rest the night before Eat a good meal before testing to stay focused Read questions completely before answering Look for keywords like "always," "never," or "except" that can change a question's meaning Choose safety-oriented answers when unsure Review all answers before submitting if allowed Stay calm and focused during the test Sample question: When should you use turn signals? Only when other vehicles are present At least 100 feet before turning Just as you begin to turn Only when changing lanes Answer: B. At least 100 feet before turning Our practice tests cover the same topics and format as the actual test, but specific questions are different. We design our questions to match the style, difficulty and content of the Utah CDL knowledge test. The practice tests help you get used to: Question formats and wording Content coverage and depth Time management during testing Critical thinking skills for test success Focus on understanding concepts not just memorizing answers, as the actual test draws from a large question bank and each test is unique. At Utah Driver License offices that offer commercial licensing services. Not all offices provide CDL testing, so check the DLD website or call ahead to confirm. Testing locations have special equipment and staff for CDL testing. Major testing locations are in Salt Lake City, Ogden, Orem, Cedar City and other cities throughout Utah. Yes, recommended. Schedule through: dld.utah.gov 801-965-4437 or 888-353-4224 Some locations may accept walk-ins for CDL testing, but wait times can be long and you may not be able to test that day if capacity is reached. Scheduling an appointment ensures you'll be tested at your preferred time and location. No. All CDL knowledge tests must be taken in person at authorized Driver License offices to ensure security, identity verification and test integrity. This is a federal requirement that applies to all states, not just Utah. In-person testing prevents cheating and ensures the person receiving the CDL is the one who demonstrated the knowledge. Required documents: Utah driver's license Social Security card/number Proof of citizenship/legal residency (birth certificate, passport, permanent resident card, etc.) Proof of Utah residency (two documents showing your Utah address) Current DOT Medical Certificate (Form MCSA-5876) Completed CDL application Payment for applicable fees For Hazmat: Additional identification documents for security threat assessment Other: Reading glasses if needed Appointment confirmation Knowledge of your medical history for medical certification All documents must be original or certified copies. Photocopies are not accepted. If you're unsure about document requirements, contact the Driver License Division before your appointment. Arrive 15-20 minutes early to allow time for: Document verification Application processing Fee payment Getting settled before the test begins If you arrive late, you may have to reschedule. First-time applicants should arrive 30 minutes early to allow time for paperwork processing. Traffic and parking at Driver License offices can be unpredictable, so plan accordingly. You'll receive a Commercial Learner's Permit (CLP) valid for 12 months with these conditions: Must wait at least 14 days before taking the skills test Can only drive with a qualified CDL holder in the passenger seat No passengers except supervisors, trainees or examiners No hazmat transport Other restrictions based on vehicle type/endorsements Specific endorsements you passed tests for will be included on your CLP. Practice driving commercial vehicles while supervised before taking your skills test. This practice time is crucial to develop the skills needed to pass the behind-the-wheel test. Scores are valid for 12 months, same as your CLP. If your CLP expires before you complete the skills test, you'll need to retest all knowledge tests. There are no extensions on score validity, so plan to complete your skills test within the 12-month window to avoid having to retest. This ensures your knowledge is current when you get your full CDL. If you fail: Wait until the next business day to retest Only retest the sections you failed Use our practice tests to focus on weak areas Review incorrect answers to understand why they were wrong Consider studying with different methods if you're struggling with particular topics There's no limit to how many times you can retest, but repeated failures may mean you need more preparation. Sample question: What happens if you fail a section of the test? Wait 30 days before retesting Retest immediately at another location Wait until the next business day to retest Retest all sections, even those passed Answer: C. Wait until the next business day to retest After holding your CLP for at least 14 days: Go to dld.utah.gov or call 801-965-4437 Make sure your CLP is valid and medical certificate is current Arrange for a test vehicle that matches your CDL class Pay the skills test fee (\$78.00) Choose a date and time from available slots Skills tests are conducted at different locations than knowledge tests. The skills test consists of a pre-trip inspection, basic vehicle control and on-road driving demonstration. Make sure you're prepared for all three parts before scheduling. As leading educational developers, we had a simple idea: create a better alternative to the traditional method of preparing for the CDL test. In the past, aspiring truck drivers were left with very few resources to help them determine if they were ready to take the exam. Designed to work in conjunction with your state's CDL manual, our practice tests are designed to be accurate, relevant, and comprehensive. By focusing on the needs of those looking to start a rewarding career in trucking, we help to ensure the next generation of commercial motor vehicle (CMV) operators develop the knowledge necessary to be safe drivers. Commercial trucking is in high demand however it's important to understand that driving a Commercial Motor Vehicle (CMV) demands a high level of knowledge, experience, skill, and physical abilities. In order to obtain your Commercial Driver's License (CDL) and begin operating a CMV, you must pass a knowledge and skills test. Although each state may have some slight differences, in general, you will need to answer a minimum of 80% of the multiple-choice test questions correctly in order to pass. Don't leave the testing center empty-handed! Start preparing now with our free CDL practice tests. Getting your CDL is the difference between sitting on the sidelines or starting your career! Ensure you are thoroughly prepared with free CDL practice tests. Our CDL practice tests include: 1000's of CDL Test Questions User-Friendly On All Devices Unlimited Attempts Revisit Your Missed Questions Exam Mode Simulator Detailed Answer Explanations Completely Free! Pass your state's CDL test with confidence! Our free CDL practice tests include multiple-choice test questions with detailed answer explanations covering all CDL classes and endorsements including: General Knowledge Air Brakes Hazardous Materials Passenger Vehicles Combination Vehicles Double & Triple Trailers Tanker Vehicles Pre-Trip Inspection You can expect questions covering the very same topics found on the real exam, including vehicle control, emergency procedures, sharing the road, railroad crossing regulations, intoxicated driving, and more. Our CDL practice tests are up to date with the latest FMCSA rules and regulations and have helped thousands of test-takers pass their exam and begin their careers. With over 3.9 million active commercial driver's license (CDL) holders in the United States, passing your CDL tests means you'll be joining one of the largest labor pools in the country. Commercial drivers are in high demand and represent a critical part of the nation's infrastructure with 70 percent of all freight being delivered by truck. Select your state to begin your CDL practice test! Getting a CDL is the first step toward a rewarding career which is why it's so important to prepare before you begin down this career path. While each state has different rules for commercial driver's licenses, there are federal guidelines in place as well. Some states may also offer specific preparatory programs to help you get ready to take your driving test. If you can find one of these programs, it will make it much easier for you to get your license. A commercial driver's license is required for any vehicle that transports more than 15 people. The United States also requires a CDL if you plan on driving a vehicle heavier than 26,001 pounds. It is also a requirement for anyone who drives hazardous cargo. According to the Federal Motor Carrier Safety Administration (FMCSA), you have to meet certain requirements to get a CDL. While your state may have additional rules, every driver must meet the federal guidelines. As a rule, you must be at least 18 years old. You must be 21 years old if you need to drive across state lines or operate a vehicle carrying hazardous cargo. In addition, you cannot have any criminal felonies or offenses that may disqualify you from getting a CDL. The first step is to figure out the type of CDL that you need. Do you want a class A, B or C? Do you need specific endorsements? There are three vehicle classes for the CDL. Tractor trailers, school buses and tanker trucks all require a different test. To get your endorsement, you will have to pass a skills test to get your permit. You may also be required to pass a written test, so make sure to study the CDL manual carefully. CDL Class A A class A CDL is required if you are driving a vehicle that weighs 26,001 pounds or more. It is also necessary for towing vehicles that weigh more than 10,000 pounds. As long as you have the proper endorsements, a class A license can let you drive flatbeds, tractor-trailers, tanker vehicles, double trailers, livestock carriers, triple trailers and tractor-trailer buses. A class A license may also let you drive some class B and C vehicles if you have the right endorsements. CDL Class B Like the previous license, a class B can be used to operate a vehicle that weighs more than 26,001 pounds. It can also be used to tow vehicles that weight up to 10,000 pounds. Depending on the endorsements that you may need, a class B license will let you drive segmented buses, straight trucks, tourist buses, school buses and city buses. You may also be able to drive box trucks like furniture delivery, couriers, delivery drivers and dump trucks. Depending on your endorsements, a class B license may allow you to drive some class C vehicles. CDL Class C With a class C license, you can drive a vehicle that does not meet the criteria listed in class B or class A licenses. It is intended for people transporting hazardous materials or more than 16 passengers. With a class C license, you may be able to drive passenger vans and small HAZMAT vehicles. You may also be able to drive combination vehicles not listed in the previous classes. There are many endorsements available for commercial drivers. Once you have a class A, B or C license, you can take additional tests to get an endorsement. If you want specific endorsements, you need to have a vehicle that is equipped with the right type of equipment. Some of the endorsements include: - P Endorsement: This lets you drive a vehicle with a set number of passengers. - H Endorsement: This allows you to drive hazardous materials. - X Endorsement: The X endorsement is for tank vehicles and HAZMAT vehicles. - S Endorsement: With an S endorsement, you can drive a school bus. - N Endorsement: This endorsement is for driving tank vehicles. - T Endorsement: This endorsement is intended for towing double or triple trailers. As a rule, you will be required to take a knowledge test and get your learners permit. You must have the CLP for at least 14 days before taking the road skills test. If you plan on getting specialized endorsements, you will have to take additional road skills and knowledge tests. To get your permit, you will have to show a medical examination, a 10-year driving history, and your current driver's license. The written knowledge test will encompass at least 50 questions, and you will need to answer a minimum of 80 percent of them correctly to pass. If you pass, you will be required to pay a fee to get your permit. The CDL test contains a general knowledge test, an endorsements test, and an air brakes test. The questions on the exam are designed to test your knowledge of: Vehicle pre-trip inspections. Communicating with other drivers. Gear shifting and vehicle control. Managing space while sharing the road. Controlling and maintaining speed. Identifying potential hazards. The dangers associated with distracted driving. The dangers of alcohol consumption and driving. Railroad crossings. Night driving. Driving in various weather conditions. Dealing with driving emergencies. Correct braking methods. Controlling and recovering from skids. Procedures after an accident. Medical requirements. And more There are 50 questions on the CDL General Knowledge Test. All CDL applicants are required to take the General Knowledge Test. You can expect additional questions if you plan on pursuing endorsements. Endorsements # of Questions Hazardous Materials 30 Passenger Vehicles 20 Air Brakes 25 Combination Vehicles 25 School Bus 20 Double/Triple Trailers 20 Tanker Vehicles 30 In most states, you will have to pass skill requirements, residency rules and a medical exam to get a CDL. You may also have to take a written knowledge test. The knowledge test includes at least 50 multiple-choice questions on highway safety and the different parts of the truck. To pass the test, you are required to score 80 percent or higher. It's important that you prepare for this test as it has a high failure rate. Your first step is to get a copy of the CDL manual for your state. You can get a free copy of your state's CDL manual on this site or at your state's Department of Motor Vehicles website or local office. The second step involves testing your knowledge of the manual with practice tests. We offer free CDL practice tests that cover all areas of the CDL exam and the relevant endorsements. After you have studied and passed the written knowledge test, you are ready to get a commercial learners permit (CLP). This permit lets you practice driving on public roads with an experienced driver. Before the DMV gives you this permit, they will check your driving record for the last 10 years in every state. Depending on your state, you may have to bring in proof that you are physically able to get a CDL. You may have to take a Department of Transportation medical exam before you are given a medical card. You may also be required by your state to prove that you are a resident before you are given a learners permit. You are legally required to have a learners permit for 14 days before you can take the skills test and earn your CDL license. Depending on your state, you may also be required to have specific CDL training before you take the skills test. During the 14 days, you should practice maneuvers and inspection tests to prepare. Each test includes a road test, a vehicle inspection test, and a basic controls test. For you to pass, you must excel in all of these areas. After you have successfully passed the skills test, you will bring your documentation to your local CDL testing office. Depending on your state, you may be able to get your CDL the same day. You may also have to wait for it to arrive in the mail. Make sure that all of your information is correct when you are at the testing office so that you do not have to fix any mistakes later or leave empty-handed.
