Hornrgren's Cost Accounting eBook: Comprehensive Text for Undergraduate and MBA CoursesThe price of SenaBooks has been reduced from \$94.99 to \$48.50. This Pearson Global Edition is designed for undergraduate and MBA cost or management accounting courses, with content tailored to students outside the United States. Hornrgren's Cost Accounting is a market-leading text that emphasizes "different costs for different purposes" and explores concepts, analyses, and management beyond cost accounting procedures. The 17th Edition incorporates the latest research and thinking into all relevant chapters, preparing students for the challenges of the professional cost accounting world. MyLab Accounting is not included, but can be paired with this text to provide personalized learning and practice opportunities for each student. New features include a chapter on data analytics, an emphasis on global issues, and a focus on merchandising and service sectors. The text also highlights shifts in US and world economies, emphasizes sustainability, and examines the role of accounting concepts and systems in fostering innovation and entrepreneurial activities. With updated material, including numbered chapter sections, analytics in practice, and learning objectives, students can guide their learning efforts and develop a solid understanding of cost accounting. MyLab Accounting provides a comprehensive learning experience that combines traditional textbook content with interactive digital tools, allowing instructors to teach their course in a way that suits their unique needs and teaching style. The resource includes chapter-opening cases that place students in real business situations or dilemmas, making the concepts more relevant and engaging. Concepts in Action boxes highlight cost accounting issues across various industries, while End-of-chapter content offers new and revised problems for students to practice and learn from.
