Note: This is ONLY to be used to report spam, advertising, and problematic (harassment, fighting, or rude) posts. Image Via Valve. Forgotten Empires, Tantalus Media & Wicked Witch | Published: Jan 31, 2023 01:43 pm I remember waiting for my dad to come home in order to play Age of Empires 2 on his laptop. Trying to understand the games mechanics and immediately using all the cheat codes available was my modus operandi. And yes, my father couldnt work on the laptop because his eldest son was determined to finish all the campaigns available. Now, if you tell me that I would be able to play Age of Empires 2 on the go, I would be overly ecstatic. Having said that, is that really a thing? Is Age of Empires 2 compatible with Steam Deck? Well, lets find out together. The answer is not what you expect. Or maybe it is. Well, you see, Age of Empires 2: Definitive Edition is currently officially unsupported. One would expect that this game will not be able to run at all in the Steam Deck. However, that is not quite true. You see, thanks to ProtonDB and some repository versions of the tool. Currently, it is rated gold in the platform. That means that it can run quite decently. Obviously, there are some downsides, like using the touchpad for a mouse point and click game and some are reporting that the game will be unplayable in multiplayer matches. Well, that is the downside of the game not being supported. Although, I must say that these reports come from specific users. Related: Is Age of Empires 2 Cross Platform / Cross Play?Answered Now that Age of Empires 2 is available on Xbox One and Xbox Series X/S, it would be a wise move in behalf of Valve or AoE developers to implement an official Steam Deck support. For the meantime, keep visiting the ProtonDB site linked above to see any updates. Good luck! Age of Empires II: Definitive Edition is available on Windows, Xbox One, and Xbox Series X/S. Some of your favorite heroes and units are ready to hit the pool, soak up the sun, and charge into battle with their pool noodles and beach balls. The next two weeks are dedicated to the SUMMER WORLD TOUR, which introduces an all-new set of daily challenges focused on the civilizations of the world! Play a new civ each day to unlock new summer-themed profile icons and visual mods for your game!Unlock six new summer-themed Profile Icons!Unlock giantBeach Ballsfor your Trebuchets!Unlock a newBeach Terrain decorated with beach towels.Unlock a relaxingBeach Scenefor your Town Center!New Rewards!Starting TODAY through SEPTEMBER 7, complete in-game tasks to unlock a horde of themed goodies: Sign into Xbox Live. Unlocks the Summer Gbeto profile icon. This is *required* if you want to save any rewards obtained during the event!Each of the following challenges must be unlocked in order and on separate days: Win a Standard or MP game playing as one of the following civilizations: The Berbers, the Ethiopians, or the Malians. Unlocks the Summer Princess Yodit profile icon. [Mod] Unlocks a Beach Scene underneath the Town Center. Win a Standard or MP game playing as one of the following civilizations: The Italians, the Spanish, or the Portuguese. Unlocks the SummerEl Cid profile icon. Win a Standard or MP game playing as one of the following civilizations: The Teutons, the Britons, or the Slavs. Unlocks the Summer Barbarossa profile icon. [Mod]Unlocks Beach Terrain with sun-bather towels. Win a Standard or MP game playing as one of the following civilizations: The Indians, the Burmese, or the Vietnamese. Unlocks the SummerBayinnaung profile icon Win a Standard or MP game playing as one of the following civilizations: The Aztecs, the Incas, or the Mayans. Unlocks the Summer Plumed Archer profile icon. [Mod] Trebuchets throw Beach Balls instead of rocks.Keep it Forever!Remember: if yousign in to Xbox Live at any point during the event, youll get to keep all of the modsandprofile icons youve unlocked! Sign in, earn your rewards, and enjoy the Summer Celebration Event!The Age of Empires Team Event F.A.Q.Q: Do I have to complete the challenges on consecutive days?While challenges dont have to be completed on consecutive days, only one challenge can be completed per day (after the initial two challenges). This means that you will need to play at least five different days to complete all of the challenges.Q: When is the last day I can complete the daily challenges?The Summer World Tour concludes September 7.Q: Do I get to keep all of the event unlocks?All you need to do is log into your Xbox Live account before the end of the event to keep all of the profile icons and mods you unlock; its as easy as that!Q: What do I do if I accidentally unsubscribe from a special mod?No problem! All you need to do is click your Profile Icon on the main menu, selectEvent Mods(under Collection), and then check the unlocked event mod you want to enable!Q: How do I change my profile icon?You can update your profile icon in your profile:On the main menu, click theProfile Iconnext to your name.You should now be in the Profile Iconstab underCollections.Select your favorite icon, then click the Select Icon button to lock in your choice.Youre done!Q: How do I download and enable mods?For information about how to subscribe and prioritize your mods, visit this article.Weve revamped the Community Stats page to include improved individual stats and leaderboard updates.Improved the look and information available on the stats pages.Information can now be filtered by game mode, as well as additional filters for civilization and specific maps.You can now download replay files directly from the website by clicking on a recent match and pressing the button next to a players name.Check out all of the changes here.GAMEStability & PerformanceFixed a crash triggered when several selected units were killed at the same time while spectating.Fixed an issue where Gates could not be constructed under certain circumstances.Units no longer perform actions when facing the wrong direction. GeneralImproved howsheepare spawned to prevent rare circumstances where sheep could fail to spawn entirely.The placement of resources in random maps is no longer constrained to cardinal directions. MapsBaltic: Slightly increased the size of the lake on larger map sizes. This ensures that all players are a similar distance from the shoreline.Islands: Deer now avoid berry bushes.Killmanjaro: Relics are now spawned exclusively on the mountain.Mountain Ridge:The number and density of deep lakes has been adjusted to provide equal access to all players.Mountain Ridge:Slightly decreased the density of forests on the map.Nile Delta: Fixed an issue where the initial Transport Ships could spawn in land-locked lakes, preventing them from being usable to migrate.Ravines: Adjusted forest generation around the map.Ravines: Reduced the density of forests near the player starting positions to allow for more aggressive gameplay.Wolf Hill: Increased the amount of starting gold from one 3-tile deposit and one 4-tile deposit tothree 4-tiledeposits.Wolf Hill: Increased the amount of starting stone fromone 3-tile deposit to two 3-tile deposits.Fixed an issue which would result in games being played on the Brazilserver rather than the most ideal server for participants in the match.Players now automatically leave their multiplayer party when they exit the matchmaking screen. Scenario EditorThe map seeds from recorded games can now be used to generate the same map in the Scenario Editor. As always, we are continuing to track issues reported by the community for future updates. Here is a brief update from our Production team regarding where theyre focusing their attention next:Server-Specific Connectivity Issues: Were received reports that some users are experiencing connectivity issues when connecting to the Brazil server region. During last weeks server maintenance, we resolved an issue which resulted in users being incorrectly assigned to that server region; now we are continuing to monitor and investigate whether additional connectivity problems exist that still need to be addressed.Disconnect and Reconnect Fix: We have major stability fixes in the works for two reported issues:One which caused players to disconnect from their matches.One which prevented players from reconnecting to the dropped matches after a disruption in their connection.When implemented, players should be able to reconnect to their games if still within the game within 60 seconds. Following thorough testing, we hope to have this implemented in an upcoming release window.For other known issues, please visitthis page to see whats being tracked! Hi,Whenever I try to play in Steam Deck (SteamOS), plugged to a dock station with KG & Mouse I get a Sync Issue.Ive tried some fixes but nothing seems to work.IS there any solation? Age Of Empires II Definitive Edition Update Hero Image(Image credit: Xbox Game Studios)Age of Empires 2 is a legendary real-time strategy game that originally released back in 2019.Today, Age of Empires 2: Definitive Edition keeps the original title alive with updated visuals, all-new content, and so much more.On Tuesday, the game got another update with two new co-op campaigns, a co-op event with exclusive rewards, and dozens of fixes and improvements.Age of Empires 2: Definitive Edition combines the best of the original RTS game with 20 years of improvements across visuals, gameplay, and more. The title continues to evolve regularly with new content, with another update in the process of rolling out to players today.The latest Age of Empires 2: Definitive Edition update features a plethora of quality-of-life improvements, bug fixes, map balancing and tweaks, and even brand-new content. Highlights of the release include two new co-op campaigns, a co-op event running until Feb. 14, 2022, with exclusive rewards and challenges, and Custom Lobby Ranked Deathmatches.The latest AoE 2 update is now available for anyone playing through Steam, the Microsoft Store, and PC Game Pass.You may like The revival of Age of Empires 2 by Xbox Game Studios is indubitably one of the best PC games you can play, especially for real-time strategy fans. Age of Empires 2: Definitive Edition is still getting fresh support to this day, even with the release and availability of its excellent successor, Age of Empires 4.All the latest news, reviews, and guides for Windows and Xbox diehards. Hi everyone! I was wondering if anyone knows if Valve's upcoming Steam Deck would be able to run DE. Obviously not on the gothat would be a nightmarebut at home and hooked up to the right peripherals.I ask because I use a Mac for work and a console for most of my gaming, so buying a PC just for AoE has never seemed like a worthwhile investment. But a portable that's also able to run DE could be the answer. Should be able to run it just fine (DE does run playable at 1080p on min-spec machines if configured accordingly), but why not get an external/portable SSD or big USB stick and boot windows from there on ur mac? That's quite easy even on macs, doesn't mix with your work and would avoid the need for a new machine altogether Reactions:Philippe le Bon, green eggs and MyRegalTip Should be able to run it just fine (DE does run playable at 1080p on min-spec machines if configured accordingly), but why not get an external/portable SSD or big USB stick and boot windows from there on ur mac? That's quite easy even on macs, doesn't mix with your work and would avoid the need for a new machine altogether Its an M1 and unfortunately they dont (yet) support Bootcamp. Yeah it would be compatible and will run the game day 1, but it depends on what do you want to play, for single player and 2x2 multiplayer it should run just fine, but for larger team games, given the low frequency it might be a bit laggy on 4x4 full pop, but i think it has potential using the steam pads instead of the right or left sticker to emulate the mouse.But if you pretend to use it as console to play on a big screen, then i don't think it will offer the best experience cause the cpu of that device is about energy efficiency and aoe only minds for high frequency which only a desktop cpu can offer. Reactions:green eggs Without a problem, I've got a small laptop with a shitty Nvidia MX250 and DE runs well at 1080p Steam Deck is much, much more powerful so it'll be a breeze. Just make sure to use it docked with a keyboard, mouse, preferably monitor and ethernet connection Reactions:green eggs Thanks for your help guys! A reboot of what is perhaps one of the most beloved strategy games of all time, Age Of Empires 2: Definitive Edition brings the classic Age Of Empires experience to console players. It allows them to try out the game's different civilizations and maps and fight their way to victory and dominance against their foes. Like many strategy games, AOE 2 can be fairly challenging to master, though. There's plenty for new players to get their heads around and a wide margin for error, especially in the early game. So, here are some key tips for beginner console players to Age Of Empires 2: Definitive Edition. There's arguably far more room for error in the later Ages in Age Of Empires 2: Definitive Edition than there is in the early game. With players largely defenseless and limited to using rudimentary technology and unit types, one mistake can cost them the entire game. So, players should focus their energy on mastering the early game when they first pick up AOE 2. They should learn what to avoid and what to prioritize in order to progress through the different Ages as quickly as possible, until they can establish their civilization and be in a far more advantageous position. Age Of Empires 2: Definitive Edition features over 30 civilizations that players can choose from. And, each of these civilizations has its own unit types, different kinds of buildings, strengths, weaknesses, and so on. Some of them have such an epic feel that they invoke similar emotions to some of the best grand strategy games out there. When players are new to Age Of Empires 2: Definitive Edition, one of the best ways to adjust to the gameplay and have success early on is by focussing on learning how to effectively play as one civilization. This minimizes the learning curve while allowing the player to have some success, which makes it easier and more rewarding to learn the mechanics of AOE 2. When players first start a new game in Age Of Empires 2: Definitive Edition, one thing that they should keep in mind is that their Town Center should always be active in some way. Whether it's creating new units or conducting research, the Town Center is the engine that will drive the progress of player civilizations in Age Of Empires 2: Definitive Edition. And, the best way to keep this progress as consistent as possible is to ensure that the Town Center is always occupied. Once players get into the habit of doing so, the benefits speak for themselves. The Scout is arguably one of the most underrated units in Age Of Empires 2: Definitive Edition. Upon starting a new game, one of the free units that players are granted is a Scout Cavalry. Learning how to make the most of this unit type can massively increase the success that players have in the early game. Players should use the Scout Cavalry to find new resource supplies, as well as spy on opposing civilizations. This is a great way to learn the lay of the land, as well as keep an eye on the progress of one's enemies. There's more or less a set pattern of steps to follow that players can learn to reach the Feudal Age. Practicing this method will not only make players more efficient at playing through the Dark Age, but it will also help them to reach the Feudal Age more quickly. This predictability is something that makes AOE 2 a great introduction for beginners to RTS games. One of the main advantages of progressing through the various Ages in Age Of Empires 2: Definitive Edition is that reaching a certain age before other players or civilizations means the player has access to more sophisticated units and technology than their foes. One of the new quality-of-life improvements introduced by the console version of Age Of Empires 2: Definitive Edition is the Villager Priority Preset function. In short, this allows players to choose what their villagers will prioritize when idle, negating the need for players to actively instruct their villagers on what to do. In the early game, players should set their Villager Priority Presets to food. Food is probably the single most important resource to prioritize in the Dark Age in particular. It's vital for creating new units and can be hard to come by before farming is possible (unless players cheat, of course). Once players have established a steady flow of food into their town, their next priority should be sending villagers out to find a reliable supply of lumber and setting up a Lumber Camp. Lumber is a crucial resource throughout every age in Age Of Empires 2: Definitive Edition, and is especially vital in the early game. It's necessary for building houses, for example, and players need enough houses to spawn enough villagers. The sooner players can establish a steady supply of Lumber, the sooner they'll generally be ready to progress from the Dark Age into the Feudal Age. It's a realistic necessity that is just part of what makes AOE 2 one of the best co-op strategy games ever. It might sound obvious, but walls are a crucial part of effectively playing Age Of Empires 2: Definitive Edition with good defense. So, prioritize building walls to protect their towns from enemy armed forces (or rogue wild animals, if players decide to use certain cheats). There are a few ways of doing this. Players may like to build multiple sets of walls around key assets that are especially valuable. If players don't have the resources to build walls, then they can construct housing in lines in a way that mimics walls (this is a good temporary solution, in any case). In strategy games like Age of Empires 2: Definitive Edition, it can be tempting to rush into war and take down opposing civilizations as soon as possible. While the prospect of heading into battle might seem appealing (especially to fans of medieval fantasy series), players will often benefit from waiting until they're truly prepared to do so before commencing the attack on their enemies. Winning siege campaigns in Age Of Empires 2: Definitive Edition is often far more resource-consuming and draining than initially expected, so it's important to ensure that there are actually enough manpower and raw resources to get the job done first. It might sound obvious, but none of the tips on this list are going to be very helpful if players aren't actually enjoying playing AOE 2. This game is easily one of the stronger titles in the franchise and well worth putting the time into. Ultimately, the play style and civilization that the player enjoys using the most is likely going to be the one that they're most successful with, too. So, players shouldn't be afraid to experiment with different approaches and civilizations until they find something that they can really get into. No matter how long this might take, it's worth it for the sheer hours of fun that AOE 2 can bring. Age Of Empires 2: Definitive Edition is out now on PC, Xbox One, Xbox Series S and X, and Xbox Cloud Gaming. MORE: Games That Deconstruct The Strategy Genre Hello.With recent Xbox release of Age of Empires 2 DE, some of the PC players and Steam Deck owners were expecting to have an update in our current copy from Steam to enjoy the experience of playing the game with the Xbox layout in our handheld PCs.Is there any chance to get an update for this feature for the Pc version of this game and be able to enjoy the game in Steam Deck/other pc handhelds/Thanks! 3 Likes +1 how long we must wait ?? +1 I would love to have controller support on pc. Need to be PC Game Pass/ Microsoft Store as well! Yes please! This would be great. Have to disable keyboard input entirely, though, with a controller connected, to prevent abuse of the AI assistance features. I would love to have this as well. +1 for controller support +1 would be really amazing RatingLinka year agoCarryingTreaa year agoAbsolutely, you can play Age of Empires on the Steam Deck! Thanks to the Steam Deck being essentially a portable PC, it can run games from your Steam library, including Age of Empires. Just make sure your device is updated, and you'll be conquering empires from the palm of your hand in no time!Play Games.Earn points.Get gift cards!Playback Rewards(13.7k)500k players and counting...SawingBullya year agoHot take: Age of Empires on Steam Deck? Sure, but remember, strategy games demand precisiona touchpad might not be your best general in the field.EarningOuncea year agoI've personally battled through Age of Empires II on my Steam Deck and it was a blast. Gameplay is smooth, and while the controls take a bit to get used to, it certainly beats not playing AoE on the go!Playback Rewards - a great rewards app for your favorite brandsDiego3 hours agoIf you're a Steam player, you need to download the Playbite app!Playbite is like an arcade in your phone: you get to play all kinds of fun and simple games, compete with friends and others, and win cool prizes from all your favorite brands!One of those prizes is the official Steam gift card, which you can win and use to get anything you want essentially for free!In case youre wondering, this is how it works:Playbite makes money from (not super annoying) ads and (totally optional) in-app purchases. The app then uses that money to reward players like you with prizes!Download Playbite for free, available on the App Store and Play Store!The brands referenced on this page are not sponsors of the rewards or otherwise affiliated with this company.
