I love the table dishwasher and after-sale-Paul Smith, 5 stars, Trustpilot"Customer Service Appeal. I need a product that fixes under warranty — only six months, I was talked to how I was dirty. Patronage and treated as a child. Apparently warranty corrections are not a priority for Bosch." -Claire Searancke, 1 star, Trustpilot What to do when your warranty expires? The Bosch dishwasher guarantee is a pretty standard manufacturer warranty. It protects you from problems arising from defective materials or processing in the production process. The warranty on the whole dishwasher lasts for one year — therefore a limited warranty on some parts of the appliance has effect. You get a limited warranty on the microprocessor, circuit board and rack that lasts for another four years, for a total of five years of ownership. The Bosch warranty does not cover damage from normal wear and tear that occurs in the appliance as you use in your kitchen. For this reason, we suggest you get a home guarantee that will cover normal wear and tear on your dishwasher and other essential appliances and systems in your home. Our recommendation for extended protection Our research team believes that American Home Shield is your best general option for home cover, and total coverage of home warranty. With three service plans covering over 23 household appliances, and the option to add on items that are not covered by a standard home warranty, you can get exactly the coverage level you need. American Housewas a pioneer in the domestic warranty industry, and has been serving customers since 1971. It is available in every state, but in Alaska. When you have a policy with American Home Shield that covers the Bosch dishwasher, simply contact the AHS customer support center and make a complaint if the dishwasher does not work. You can call or go online 24/7 to make a complaint. The AHS customer service center will contact a pre-approved service partner to exit and check the dishwasher. You will have a service fee ranging from \$75 to \$125 for your visit. With American Home Shield, you get to choose the level of call service tax your door policy, which will affect the monthly rate. Benefits of a home warranty There are a number of reasons why a home warranty is a good choice to protect your dishwasher and much more. In many cases, the service fee will be your only cost for repairing the appliance or system. For some great home systems, like your heating system, there may be a limit to what home warranty providers will pay. For example, AHS will pay up to \$1,500 per contract term to repair or replace the heating system. Others, such as the Choose Home Warranty or Amazon Home Warranty, will have unique limits, so check your contract. While this amount would not completely pay for a new heating system, if you need it, it would significantly reduce what you should pay for a new system out of pocket. The home warranty contract lasts for a year, but you can renew itYear. There is no limit on the number of repairs that may occur during the warranty period. Also, it covers all your household appliances in a simple place. You don't need to keep track of your Bosch dishwasher warranty and guarantees for each single appliance in your kitchen and laundry. Instead, you pay an annual fee for covering all your household appliances.
