Random events Campaign gang fight Prev random events Altruist cult shootout Availability: any character The places where you can meet the armored vans have been marked on the map attached to this description. It's a good idea to attack the guard before putting the case in the van. This event takes place in ten different positions in the world of the game, and is always identical in its course. You should notice a white and green armored van, and it is a good idea to try to get the money brought by it. I suggest you attack the van as soon as it stops at the gas station, or where the guard receives the money. At the same time, you should notice that the guards are very vigilant and will attack you as soon as they see a gun in your hand. The best idea is to attack the guard by bringing the case with the money before putting the case in the van. You should be, of course, prepared to quickly produce your preferred weapon from inventory and eliminate both guards before they can respond with fire (you can also crush with your car at least one of them). A bomb is a good way to open the van door if the case with the money in it has already been loaded into the van, the only way to get it is to destroy the back gate of the van. Get closer to the gate and start shooting you using, for example, the assault rifle, or attack a sticky bomb and detox it. Regardless of how you decided to get the money, in the end, you need to shake a chaise of two or three police stars, so, start running immediately after getting the briefcase. Rewards for the completion of the event: cash (the amount of money in the case is random, but ovaries between \$3000 and \$8,000) random events gang fight prev random events altruist cult shootout page 2 download game guides pdf, epub & & &Free iOS App Welcome to Los Santos!
