According to Eduardo Valadez, director of marketing at Diptyque, proper candle prep is key. Before lighting, trim the wick to a quarter-inch length and burn the candle for at least two hours until the whole top is liquid wax. This will help it burn more evenly and prevent the wax from tunneling down around the wick. Our top picks include: * Byredo's Bibliothque Candle: A classic blend of beeswax and vegetable wax with a burn time of 60 hours. * L'objet's Mamounia Candle No. 28: A sophisticated scent with notes of rose de Mai, Moroccan rose absolute, geranium, leather, and amber, featuring a beautiful Limoges porcelain and brass container. * Jo Malone Wood Sage & Sea Salt Candle: A natural wax blend with a burn time of 45 hours, perfect for special occasions. Don't forget to pair your new candle with some chic accessories, like a wick trimmer or a candle-warmer lamp.
