Ieee transactions on power systems template

Editorial Board Information for Authors Policy and lines Issues Send your Paper View to IEEE Xplore IEEE Transactions on Industrial Electronics is published monthly. Its scope includes applications for electronics, controls and communications, instrumentation and computational intelligence for the enhancement of industrial and productive systems and processes. Included are power electronics and drive control techniques, system control and signal processing, detection and diagnosis, power systems, instrumentation, measurement and testing, modeling and simulation, motion control, robotics, sensors and actuators, implementation of neural networks, fuzzy logic and artificial intelligence in industrial systems, computer systems and computer systems. Technical areas: Single-phase Electronic systems and units The new Robotics and Mechatronics Actuators and Motors Control and Signal Processing Diagnosis and Monitoring Instrumentation and Sensors Embedded Systems Intelligent Systems Networking Previous Editors-in-Chief are listed here Co-Editors-in-Chief Past Co-Editors-in-Chief Techv.Univ., Japan Joachim Holtz,Wuppertal Univ., Germany J. David Irwin,Auburn Univ., USA Bogdan M. Wilamowski,Auburn Univ., United States newspaper directors Send your paper view on IEEE Xplore #007E33 #FF8800 #CC0000 Open Recently published Early Access January, November, August Transaction documents are expected to be of higher quality than the conference documents, including in terms of size of the study, inclusion of theoretical and experimental work, explaining where the contribution is compared to existing art, etc. This said, it is often the case that a Transactions card initially begins as a conference document, or is a combination of different conference documents. In fact, some IEE companies, such as IAS, require a document to be presented first at a conference. Documents submitted to PowerAfrica can be a good source of a potential Transactions card. For interested authorsin Transactions after PowerAfrica, there are several steps to take: Add material, combine multiple cards, and typically improve the card to make it ready for peer review. Select the most appropriate transactions. Most likely PowerArica Card Transactions: The recommendation is therefore to examine the scope of the various possible operations. If it is unclear, do not hesitate to contact the Transaction Editor you are considering, and ask if your subject is within its scope. Alternatively, do not hesitate to contact the Organizing Committee of PowerAfrica or Bruno Lequesne at Bruno.lequesne@ieee.org. WSEAS Transactions on Power Systems Print ISSN: 1790-5060 E-ISSN: 2224-350X Contents: 2021 | 2020 | 2019 | 2018 | 2017 | 2015 | 2014 | 2013 | 2012 | Send a document | Submission Terms and Publication Costs | Paper Size Quality Control | Review Process | Acceptance Rate (for the years 2012 to 2019): 24.49% Acceptance rate = C/D where: C = number of accepted cards, D= the number of documents submitted. Retired documents are not considered for C and D. Editorial Board numbers: Editor-in-Chief Co-Editor-in-Chief Prof. Massimo La Scala, IEEE Professor of Electrical Systems Department of Electrical Engineering and Information Polytechnic of Bari Via Orabona, Bari, ITALY E-mail: massimo.lascalea@poliba.it Associate Editors: Prof. Germano Lambert-Torres, IEEE Fellow, Federal University of Itajuba, Itajuba,Dr. Karen Butler-Purry, IEEE Fellow, Texas A&M University, Texas, USA Prof. Rainer Haller, Department of Electrical Engineering and Informatics, University of Pilsen, Czech Republic Prof. Ehab El-Saadany, IEEE Fellow, University of Waterloo, Waterloo, Canada Prof. Panos Pardalos, University of Florida, USA Dr. Vassiliki Kontargyri Profeitzer 33405 Talence, France Prof. Rafik Belarbi, University of La Rochelle, France Prof. Igor Kuzle, University of Zagreb, Zagreb, Croatia Prof. Fragkiskos Topalis, National Technical University of Athens, Greece Prof. Mario Luiso, Second University of Naples, Naples, Italy Prof. Nouredine Harid, Department of Electrical Engineering and Computer Science, Abu Dhabi The editor accepts papers.
