Decided by voting open to all members of Goodreads, the Goodreads Choice Awards are the only major book awards chosen by readers. Voting in 20 categories happens in November, and the winners are announced in December. The GCAs launched in 2009. Goodreads analyzes statistics from the hundreds of millions of books added, rated, and reviewed on the site to select 15 worthy nominees in 20 categories. Write-in votes are also accepted during the Opening Round so readers can vote for exactly the book they want. In this way, receiving a Goodreads Choice nomination is truly an honor that comes straight from the readers. divide-se pelo sangue prateado, dotados de capacidades sobrenaturais. Mare faz parte da plebe, os Vermelhos, sobrevivendo como ladra numa aldeia pobre, até que o destino a atraiçoa na própria corte Prateada. Perante o rei, os príncipes e nobres, Mare descobre que tem um poder impensável, somente acessível aos Prateados. Para não avivar os ânimos e desempenhar o papel de uma princesa Prateados. Displaying 1 - 30 of 76,008 reviews Jessica Parallel Silverbow Adventure, Adventur sound kind of familiar, especially considering that said downtrodden heroine is a Red, but beyond that I didn't feel like there were many similarities. And as much as I love Red Rising and Golden Son, I would jump all over it if I thought this book was a copycat. BUT. Sold as I was (at first), the heavy-handed descriptions and comparisons, piled on top of unnecessary flourishes, piled on top of still more comparisons . . . *sighs*For example: The only thing that serves to distinguish [Reds], outwardly at least, is that Silvers stand tall. Our backs are bent by work and unanswered hope and the inevitable disappointment with our lot in life. "Backs bent by work" was sufficient to get the point across. "Unanswered hope" lent poignancy. BUT "the inevitable disappointment" blah, blah, turned a statement that could have been a powerful illustration into overkill. Was this an isolated incident? *snorts* Hey, lady! This concept: It's a good one. FYI.And that wasn't the only problem: 1. I hadn't given much thought to why I typically crave bloodthirstiness from my heroines. Previously, when it was an issue, it was in regards to only two types of characters: those who didn't. Turns out there's a third type. She who makes the hard decision: "Are you with us, Mare Barrow?" he says, his hand closing over mine. More war, more death, Cal said. But there's a chance he's wrong. There's a chance we change it.My fingers tighten, holding on to Will. I can feel the weight of my action, the importance behind it."I'm with you.""We will rise," he breathes, in unison with Tristan. I remember the words and speak with them. "Red as the dawn."In the flickering candlelight, our shadows look like monsters on the walls. Dithers over that decision: "Children." The words rip out of me. "He's a father." (Damn right, he is. And a husband, and a son, and maybe an uncle and a nephew, too. THEY ALL ARE, you daft cow.) Then sticks her head in the sand like a fraking ostrich after the decision is carried out: All together, twelve died last night, but I refuse to learn their names. I can't have them weighing on me . . . I've said before that if you're going to be an assassin, you need to own it. I'm adapting that statement: if you're having legitimately conflicted thoughts, then maybe you shouldn't be killing anyone. But regardless, YOU TAKE RESPONSIBILITY FOR YOUR ACTIONS. You don't go all Scarlett O'Hara would make a damn terrible assassin, that's why. And Mare Barrow makes an equally terrible freedom fighter. She's this BAFFLING combination of ruthlessness, pragmatism compassion, self-entitlement, and poor self-esteem that causes her to constantly second guess herself. Beyond that . . . I'm not sure how down I am with the cause. It's one thing to kill in the heat of battle or to premeditatedly take out a Bad Guy, but to play god, picking and choosing who will die b/c their death will create more chaos than that-personover-there ?*frowns and squints* The whole scenario sat poorly with me. But my reasons for being uncomfortable were totally different than Mare's, so instead of bonding with her, I wanted to smack her. Sometimes MCs make mistakes. They're supposed to learn from those mistakes-that's what humanizes them, that's what spurs character growthbut Mare never takes a hard look at herself. She stays almost, b/c she's too selfish to be truly flat. 2. Then there's (if you haven't started noticing it already) the melodrama: My hands wipe at my eyes, though my tears are long lost in the rain, leaving behind only an embarrassingly runny nose and some black my eyes, though my tears are long lost in the rain, leaving behind only an embarrassingly runny nose and some black my eyes, though my tears are long lost in the rain, leaving behind only an embarrassingly runny nose and some black my eyes, though my tears are long lost in the rain, leaving behind only an embarrassingly runny nose and some black my eyes, though my tears are long lost in the rain, leaving behind only an embarrassingly runny nose and some black my eyes, though my tears are long lost in the rain, leaving behind only an embarrassingly runny nose and some black my eyes, though my tears are long lost in the rain, leaving behind only an embarrassingly runny nose and some black my eyes, though my tears are long lost in the rain, leaving behind only an embarrassingly runny nose and some black my eyes, though my tears are long lost in the rain, leaving behind only an embarrassingly runny nose and some black my eyes, though my eye makeup. Thankfully, my silver powder holds. It's made of stronger stuff than I am. Crying . . . in the rain. Then comparing herself . . . to MAKEUP . . . and coming up short . . . Really? But this one's my favorite: "I wish things were different," he whispers, but I can still hear him. The words take me back to my home and my father when he said the same thing so long ago . . . So long ago? . . . To think that Cal and my father, a broken Red man, can share the same thoughts makes me pause. Hmm . . . you like tacos, too? That's CRAZY. Me, I friggin' love tacos. It is a small world.3. I don't hate all love triangles . . . When they don't get ridiculous, sometimes I even like the tension they create. BUT. There is something inherently sordid about messing around with brothers. It's tacky. Don't do it. *flares nostrils* And I'm going to have to stop, b/c I'm nearing my (self-imposed) word limit. But know that as well as being melodramatic and a coward, Mare Barrow is also self-centered, irrational, AND inconsistent. If you really want to hear me rant some more, I'll spoiler tag it in my Goodreads review. Beyond that, the book was 100% predictable, and the methods employed to overthrow the corrupt government itself. Not recommended. SPOILERY rant time! Starting where I left off: Self-centered: The biggest gripe the Reds have with the Silvers is that when they turn eighteen, if they don't have a job (and jobs are few and far between) they are conscripted into the army. The Silvers have been at war for over 100 years, and the Reds have always been their cannon fodder. Fairly early in the book, Mare finds out that her favorite brother (of three) was executed as a deserter of this army. She is understandably wrecked.BUT. When the brother of her biggest rival is one of the Silvers marked for assassination, Mare observes the two clearly close siblings, and thinks: "If all goes to plan, he'll never hug his sister again. Evangeline will have lost a brother, just like me. Even though I know that pain firsthand, I can't bring myself to feel sorry for her. Especially not with the way she holds on to Cal." B/c JEALOUS. But that's nothing compared to when she wakes up in a prison cell with Cal after they've been wrongfully arrested for the murder of the king. When it all goes to hell (as YA books are wont to do in that last 10-15%):1. Cal learns that his evil stepmother the queen used her mind control power to make his mother kill herself.2. His evil stepmother the queen uses her mind power to make Cal unsheathe his father's sword and use it to behead him. His father. Cal beheads him. Himself. WITH HIS OWN SWORD.3. His brother (Maven) stands there and watches. And Mare's first thought? Maven has betrayed me. No, he was never on my side at all. *flares nostrils again*Now would be a good time to bring up how all that heavy-handedness that drove me nuts also made the book incredibly predictable (b/c DUH, of course Evil Stepmother killed the Queen). The second Maven showed up to meet the Red Guard along with Mare, I not only doubted his sincerity, but I also predicted that the whole thing had been orchestrated by his mother in a plot to get him on the throne in place of Cal. The only things I didn't get with pinpoint accuracy were that Shade (Mare's brother) was the lone survivor from the 27 suspicious cremations--I thought all of them were together somewhere, either being experimented on by Silvers or that they were already with the Red Guard--and I thought Kilorn was also an Extra based on Mare's comments about his super-sneakiness. Actually, I still think Kilorn's going to be an Extra. Anyway, it was obvious that Mare wasn't the only Red who had developed abilities, b/c of all the references to her father's "bloodhound"-like sense of smell. Moving on. Irrational:My teeth grind together, chewing on the words before I can spit them out. "Did Cal tell you what happened?" "He did," Julian replies evenly. "And he's right. Don't fault him for it." I can fault him for whatever I want," I snort, remembering the war books and death guides all over his room. "He's just like all the others." "What happened" was that Mare lost control of her power when she learned that Shade was dead. So Mare is throwing a temper tantrum b/c Cal prudently had her training schedule changed to include practicing control of her gift b/c he was concerned she might hurt herself or someone else. Those "war books" and "death guides"? HE'S THE CROWN PRINCE. His country has been at war for 100 YEARS. Of course he studies battles and tactics, you ridiculous harpy. And when Cal is furious about not being able to fight his own battles: "I'm a soldier," Cal spits, shrugging away from his brother's touch. "I can't just sit by and let others fight for me. I won't do it. "He sounds like a child whining for a toy--he must enjoy killing. It makes me sick. I don't speak, letting the diplomatic Maven talk for me. He always knows what to say. Do you see why it was so easy to predict the outcome of this little shindig? Inconsistent: "He thinks speeches are a waste of time. Cal likes action, not words." That makes two of us, but I don't want to admit I have anything in common with Maven's older brother. Maybe once I thought so, but not now. Not ever again. Umm . . . ? Her entire thought process there is mind-boggling. Then several pages later: And as much as I hate to admit it, I can't blame Cal for feeling caught between two worlds. After all, so am I. *headdesk*I don't know, I DON'T KNOW.dystopian edelweiss esp January 27, 2023 "Graceling meets Selection" Whatever marketing team came up with that tag for this series clearly never read the book. Red Queen is Game of Thrones with Katniss as the Mockingjay with X-Men in a tantalizing YA twist of magical perfection. Three quotes that summarize this series spoiler-free: "Anyone can betray anyone." Meet the Lannisters Silver Court and their current royal family."Make no mistake, my girl. You are playing the game as someone's pawn.""I am a fool."Sooooooooo... My initial reaction:I have to wait another year??? Let me repeat: I HAVE TO WAIT ANOTHER YEAR???...Yeaaaaa, I'm totally cool with that. Not.Alright. Now to my actual thoughts on this book. I marked the whole thing as a spoiler because I am lazy but yea, trust me when I say you don't want this ruined (so read on at your own peril):1. "Little lightning girl." Okay, yea, the way they use her reminded me a lot of Mockingjay. Not going to lie.2. Cal - Shame on you, you hot beautiful prince, you. You were totally scamming AND making move's on your brother's girl. I know you are supposed to come off as this nice guy but before Mayen turned out to be evil I seriously did not like you. I mean I was totally rooting for you and Mare (*gasps that dance scene*) but I was mad at you for being the popular/likable guy when you were totally secretly making eyes at your brother's wife that you know he's falling for. That said I still loved your romance scenes and I do like you. I will admit to my sickness. 3. Mayen, #TeamWarnerDarklingMorpheusJaceDamonSalvatoreDaemonBlack -and now Maven.4. This book totally has a love triangle (maybe more, you can never tell with the childhood friend what's-his-name). But strangely enough I enjoyed it. It played out to my guilty pleasure side. If Maven wasn't in this book I would totally be in love with Cal, and vice versa I loved them both. The only other time I have loved both guys in a love triangle was Cassandra Clare's Infernal Devices series (and even then I still obviously preferred Will, but I was definitely okay with both).5. There were definite clichés/overused tropes: "You're going to be his brother's wife. And he's going to war." "I am the little lightning girl, and I am going to make the world change."... but I was down with them. Because tropes & clichés are there for a reason. We all secretly love them when the writing sucks. Only trope I hated: the instalove with Cal & Mare, I was cool with it until (I apologize for the rant) this happened. Maven shakes his head. "He [Cal] will always choose you.">> Really? Yea, he liked her but now everyone was suddenly "Cal will choose you over his country?" Umm. NO. That part annoyed me to no end because while I was down with instalike I was not down with instalove (and I did not interpret Cal as that much of an idiot). Thank the gods that turned out not to be true. It's cool that Cal hesitated but if he had actually chosen Mare I would have lost respect for him. Instead I gained so much more for him standing up to her and turning her in. Way to go, Cal!!!6. The brother Shade. WTF? Why didn't the Guard tell her about him if he was still alive? That twist annoyed me. They didn't suspect Maven so they had no reason to keep it a secret. Maybe I missed something but that was the only plot hole of the book and honestly it was so small I didn't care. Queen Elara (enough said): "Like any wife, she hates the power the king holds over her." Now onto my favorite scene... Let's be honest: it was everyone's. We all knew a big twist was coming but it was still SO EPIC. And hellooo Darkling aka Maven. I knew you were more than just your brother's shadow. "He rolls his shoulders, cracking his bones to chase away an ache. His motions are sluggish and strange, and when he settles back on his feet, hands on hips, I feel like I'm seeing him for the first time. His eyes are so cold."The queen was way too much of a biatch to just stand on the sidelines with the most awesome power (Whisper!) of all. "Because she already knew. Because this was her plan all along."When Malfoy/Joffrey listened to Cersei Lannister Maven listened to his mother I had this image in my head: Followed by a wish that Mare had her powers back to do this: I LOVED EVERY MINUTE OF THIS BOOK, GUYS. READ IT NOW. I LITERALLY BOOKMARKED EVERY SINGLE PAGE. AND NOT JUST THE MAVEN PARTS, GUYS, ALL OF IT!!! And finally my favorite line of the whole book: "This was the shadow controlling the flame." Yea, I know, I'm #teamMaven. I know you are all #TeamCal, hence I leave you with this:OMG I CANNOT WAIT FOR THE NEXT BOOK!!!July 10, 2015I just... can't do it.It was boring, light and silly, and I'm pretty sure I've already read the basic premise of this book in Pierce Brown's Red Rising.I made it to 60% on my kindle and then skimmed for a bit, but I've been attempting to read this book for over a week now and the magic was evidently lost on me. When you're reading a book and you reach a point where you think "is it too soon to DNF this?", you know things must be bad. It's so sad, though, because everything about The Red Queen was just screaming "love me, Emily!" before I picked it up. It's not because of the love triangle, either. I've said before that an author can easily sell me a well-executed love triangle - so nope, it wasn't that. Let me tell you a sad little truth about this book and I can take it straight from the blurb: Graceling meets Twilight or something similar. But, whatever, there was a rather distinct lack of Graceling in that 60% I actually forced myself through. Maybe it comes later... but I no longer have any interest in sticking around to find out. There was way too much of The Selection's mean girl antics to make this book interesting. The part of this book I read was sooooo slooooow. Painfully slow. We're introduced to a world that had potential but remained incredibly basic, bringing nothing particularly new to the table. There are two kinds of people in this world - Silvers and Reds. The former are the ruling class, have silver blood, and sometimes possess special abilities like mind control and elemental manipulation. The Reds are a slave class who are ruled over by the Silvers and live in poverty. Mare is a Red who, in unexpected circumstances, discovers that she has powers of her own. In order to keep an eye on her and learn more about the powers she possesses, she is disguised as a Silver and trained within the Silver palace. All the other women in the novel instantly hate her (usually for no good reason) and all the men see sunshine radiating out of the pores of her skin (metaphor for "cue love triangle"). Ooookaayy. And this is the description for Red Rising: Darrow is a Red, a miner in the interior of Mars. His mission is to extract enough precious elements to one day tame the surface of the planet and allow humans to live on it. The Reds are humanity's last hope.Or so it appears, until the day Darrow discovers it's all a lie. That Mars has been habitable - and inhabited - for generations, by a class of people calling themselves the Golds. A class of people who look down on Darrow and his fellows as slave labour, to be exploited and worked to death without a second thought. Until the day that Darrow, with the help of a mysterious group of rebels, disguises himself as a Gold and infiltrates their command school, intent on taking down his oppressors from the inside. Of course, there's a revolution brewing in both books too. And both main characters pretend to be members of the other class. I mean... it's like the word "Gold" was just replaced with "Silver" and all the socialist angst was replaced with high school bitchy angst. There was so little action in that first 60% that I literally had to force myself through pages and pages of Mare flirting with the Silver prince - Cal - and the prince's betrothed - Evangeline - hating Mare as soon as she set eyes on her. This book was a constant showdown between the innocent MC and the bitchy mean girl (and her gang of mean girls). Hell... you can even match the characters up to their high school cliques. And I'm sure Evangeline's meanness is going to be used as an excuse for Mare to run off with Cal and not lose any sleep over it. Maybe not... but probably. The main problem for me was that the revolution and the bigger war going on between the Silvers and Reds wasn't given enough attention. I felt like the plot relied on the romantic aspect and the angst to propel it along. Neither of which I cared about. Farley scoffs. "You want me to pin my entire operation, the entire revolution, on some teenaged love story? I can't believe this. "Across the table, a strange look crosses Kilorn's face. When Farley turns to him, looking for some kind of support, she finds none." I can," he whispers, his eyes never leaving my face. Blog | Facebook | Twitter | Instagram | Tumblr | YoutubeAlienor X French Frowner X February 15, 2021Actual rating: 1.5 stars So, this is the 2015 mind-blowing release? ① I'm just so fucking bored. UNDERWHELMED is the word.② Mare is a selfish brat who can't shut up one second to look at something else than herself. She keeps acting without thinking and gets numerous people harmed/killed. ③ She's a special snowflake through and through, because she's special you know and nothing can be done without her. She's in a constant need of saving and doesn't even acknowledge that fact. There is a love-triangle (square?) but it's not what annoys me. The fact that I can't bring myself to FEEL SOMETHING for any of these (3) male-leads does annoy me, though. Now, as bland and hollow as they are, I still don't understand what they see exactly in Mare but who am I to judge? "Why I care, I can't say". ME NEITHER, Mare, me neither. if I had to choose, I'd take Maven though. Because OBVIOUSLY. *evil grin smirk*® She's not sarcastic but just plain rude and oh so WHINY. She can't seem to find any redeeming quality in any other woman. Guess what? I'm not finding any redeeming quality in you either. GIRL HATE EVERYWHERE. Why, oh why do women always hate other women ON SIGHT in these books? Just TELL ME. Evangeline: "From the way her fingers tighten, I can tell she wants nothing more than to wrap her hands around my throat." Because reasonsRandom Silver girls: "Before I have a chance to take a breath, a pair of girls steps in front of me. Their smiles are fake and cold, just like their eyes." Because reasonsHer tutor: "I observed," she clips, already hating me." Because reasonsI'm not the kindest person of the world by any means, but I never hated someone ON SIGHT. For fuck sake. We will never see men doing that in books and that's what sickens and maddens me. It spreads the message that we women are sly and hateful. Oh but wait! This is by far the most widespread stereotype about women. Women authors, I'm not thanking you. The similarities with Red Rising are just obnoxious. Say the girl who didn't like Red Rising, though. "And we will rise up. Red as the dawn." Yeah, right. Never seen this before. I'm just so fucking bored, but I already said that, didn't I? B-bu-but nothing happens! Perhaps it be better if there aren't all these plot . You know, when want us to believe in a rebellion without even . People are starving but WHO CARES? There is a rebellion but WHO CARES? The Queen can read minds but OMG she can't guess anything? HOW FUCKING CONVENIENT. and this is what made the "plot-twist" not at all surprising. The lack of world-building or of any descriptions, really, gave me the impression that the characters walked in a BLANK bubble. That ending though. Too bad I don't care about any of the characters. Waste of my time.Oh and you people! Please stop SMIRKING! (my Kindle found 38, and my favorite is: "she manages to smirk without moving her lips" The Fuck? I would so love to see that!) Ps. I'm Team #TheOneWhoWillKillHer *smirks* For more of my reviews, please visit: December 10, 2020 Latest BookTube Video is up - a totally serious take on writing Young Adult Lit! You know that feeling when you read a particularly bad YA and you just have to set down the book and ask, why? Why in the world did someone give the ok to publish this mess? Why are the characters so effing dumb?Why did I even pick this book up? This happens (on average) once per YA book for me... and Aveyard's book was so far above average that I was honestly impressed. This book had me questioning everything WHY is everything always Mare's fault? Her sister getting caught for stealing? Totally Mare's fault. Rebel uprising? Totally on her ... There is a difference between taking responsibility for your actions and squeezing out every last ounce of sympathy for your main character. This is a case of the latter. WHY is everything repeated three times? Is there a word count limit Aveyard was building to? Did someone regift a thesaurus to her last Christmas? If so, why can't she find any synonyms for Red as the Dawn? That bloody crimson freaking dawn was the bane of my existence. WHY is there so much angst?? There's excusable teenage angst... and there's what we had to read. It's like, come on, they (Mare's captors) literally made Mare read one paragraph of propaganda in exchange for letting her marry the hot prince. Stop complaining about the "torture" - they LITERALLY made you a princess.WHY are first fridays even mentioned at all?? It's like in one chapter and then the entire city/world totally forgot they were a thing. It's like Aveyard was like, "Let's throw in a bit of Hunger Games" but then her editors said, "Sorry, there's a whole series about that." and then they forgot to delete it from the manuscript. WHY did I pick up this book? Don't actually have a good reason other than a friend said they thought it was terrible and wanted my opinion. Guess we figured out that... Audiobook Comments the reader really embodied Mare, which made listening to this book? Don't actually have a good reason other than a friend said they thought it was terrible and wanted my opinion. Guess we figured out that... up listening to this one on 1.5x speed just to get through it faster. I did not like Red Rising. DNFed this around the 20% mark. I hated the main character. Stupid, selfish, destructive brat intent on destroying the lives of her loved ones with all the makings of a special snowflake. I can't tolerate this character. I can't tol 2016 this was a re-read for me. my original review can be found here: goodreads: After re-reading this, I stand by my original 4 star rating and my overall enjoyment of this book. I want to make it clear that I know this book does not have the most original concept and it also uses a lot of tropes, but I still had such a fun time reading it. I love the characters and the shock factor and the world. I can't wait to give Glass Sword a go and see where Victoria Aveyard takes this story. February 17, 2015This was fantastic! I thoroughly enjoyed this crazy adventure of a book. I will say though that it did take a bit of time for me to really get into this book. I also felt the world is still a bit underdeveloped for my liking, but I'm hoping that I gain a better understanding for everything in the sequel. Other than that such an exciting read, full of twists and turns that I'm hoping that I gain a better understanding for everything in the sequel. Team Maven.. Te betrayed us both, in a thousand different ways. I choose no one." I am sorry. I see Mare's betrayal and Maven's (obviously)... But I don't see Cal's betrayal. He never lied to her. She just assumed that he will go against his beliefs and his father? Okay! Elara!!! So, what team am I?#teamCalMarch 21, 2018Red Queen? more like Trash Queen, hmm yes, much better. I wish I kept putting this book off until I eventually died someday. I would have been saved from the incredible fucking boredom and dumb ass characters. Actual footage of me crying because I wasted three days on this book when I could have been reading good quality smut: Okay, but why was this book so long??? I feel like it could have been cut down by 383 pages instead of fucking dragging to a disappointing and predictable ending. Guys, the writing it's so tedious, slow, dull, monotonous and sing the Barney theme song (which is fucKing lit by the way) over and over again till someone finds me dead in my room. Here's a concept: everyone dies in this book and Barney rules the kingdom because he will be everyone's friend!!!! and he can show you a lot of tHINGS. Anyways, let's talk about Mare Barney, whose name rEMINDS ME OF A HORSE??? How am I supposed to take her seriously when I always think of a horse whenever someone says her name. And she's just so dumb?? And annoying?? her death is very much needed thanks. Cal is also dumb and annoying and has no personality whatsoever. His death would also be appreciated. And Maven??? Hi, that plot twist was seen from miles away!!! I hope he finds Mare and Cal and then kills them and then rules ruthlessly, have a good day.-----that was not a fun\...THEY'RE ALL fucking Stupid and I can't wait for their deaths in the next book, especially Mare Barrow whose name reminds me of a hORSE.god, was I BORED and I predicted the major plot twist. the character's were blander than a potato and honestly?? I want to feed them to sharks.review to come after I'm done screaming over this waste of a pretty cover.BR with this smexy beast.------I scrolling through my friends reviews and every single one of them has read them. Like literally everyone has read this except me??? Sana tf you doing???Ok but this series is finally ending so i can start it soon!! And the covers of every single book is gorgeous, i can't even,,,cringe-romance dystopia stuck in a high fantasy world on crack.Look, guys, don't worry about the love triangle. Actually, calling it a love triangle is very spoilerish and I wish I could further calm your feels, but alas, you must read it for yourself. Immensely loved this with very minor reservations and I can't wait for book 2!
