We live in a world of laws. The speed limits and traffic laws regulate the way we drive. Criminal prohibitions on everything, fraud and malversation to aggressions and beatings, ensure order and control to everyday life in a free society. Personal wound laws may seem as they are designed to fill the pockets of doctors, lawyers and insurance companies but most have been destined to protect people in the case of an accident. But some laws make you just scratch yours head. Å «Every fool can make a rule, and any fool will notice it," said Henry David Thoreau once. Strident abolitionist and sworn enemy of the tax authorities, he probably referred to slavery laws and excise duties. Restrictions on things like arcade games, the fake wrestling meetings and playing cards may have been less offensive for the author of Å «Civil Disobedience», but this does not make them less arcane and, in some cases, ridiculous . Here is a list of the 10 more archaic laws still in force is not a problem. Limit the list for only ten, however, is a remarkable company. Read on to see the 10 more obsolete, useless and simply strange laws still on books. The Popeye chicken and cookies were born and bred in New Orleans. Colonel fried his birds in Kentucky. But the Georgians take this abuse delicacy perhaps the most serious about all the southern states. A warm and crunchy wand practically implores to be collected and devoured with your two gloves. In the state of Peach, it is the law. Technically. A Gainesville ordinance, GA, makes it illegal to consume fried chicken in any way except by hand. Emandata in 1961 as an expedient of public relations to promote Gainesville as a lighthouse of the poultry world, the law is still on books. Do not despair, however, if you find yourself using the cutlery to carve you a fried thigh in the pan within the city borders. In 2009, a 91-year-old woman «arrested» for having eaten fried chicken with a fork a few moments were raised later by the mayor of Gainesville, present as part of a practical joke [source: Jordan] .new Orleans certainly deals with Respect his firefighters. The heroes that challenge fire flames in the Big Easy may seem like rough and rough professionals, but at the end they have the sensitivity of a delicate flower. The article 74-2 of the City Code of New Orleans states: Å «It is illegal and a violation of peace for any person to impecute, insult or use an obscene or outrageous language to or with reference to any member of the fire brigade of the city in the actual fulfillment of its duty. "The law is still on the book, but was declared unconstitutional by the Supreme Court of the United States in 1974 [sources: code of ordinances, Lewis v. New Orleans]. Now we just have to understand what It's hard to imagine that a city once ruled by outlaw Josey Wales is over-regulated. But Carmel, California, where Clint Eastwood was mayor from 1986 to 1988, is home to a series of unusual, unusual laws, a ban on high heels. Just like that, shoes with heels more than 2 inches (5 centimeters) high or with less than a metre base are a no-no at this scenic Monterey Refuge. The ban on pumps was implemented in an attempt to limit the liability of the city for travel accidents and falls by people crossing the rugged streets of Carmel in stilettos. It is not often imposed -- and you can get a free high heel permit at City Hall [source: Grischyl]. There are all kinds of misleading laws in the United States that regulate what people can and cannot do on Sundays. This is largely a reflection of the nation's puritanical roots. Restrictions on liquor sales (and the Chick-fil-A rule against Saturday opening) remain in place in many states, cities and towns, but they are hardly the only sober Sunday prohibitions still enforced by the amusing police. In Alabama, for example, it is a "criminal offensive against public health and morals" to engage in a number of activities on Sundays, including playing cards. Shooting, hunting, gaming and racing are also prohibited and carry a fine of \$10 to \$100. Worse, you could be imprisoned or sentenced to hard labour for no more than three months for one of these "immoral" acts [source: Justia]. Residents of Maine dig their lobsters, black bears and winter brisk mornings. They're not too high-pitched for the shy ones who sell cars on Sundays. Under Title 17, Section 3203 of the State Code, the sale of cars and other motor vehicles on Sundays is strictly prohibited. Violation of the law is a felony, punishable by up to six months in prison and a \$1,000 fine, along with revocation of the auto dealership license. The law is not, however, simply limited to guys down at McGillicuddy Mazda & Subaru Barn. It applies to any person who engages in the purchase, sale, exchange or trade of a new or used car on the day of rest [source: Main Revised Statute]. Surprisingly, many car dealers are in favour of this ban, as it gives them a break from the relentless competition among themselves [source: Newman]. Being the greedy outdoorsmen they are, lawmakers in the state of Pine Tree make an exception for motorhome sales, which are perfectly legal seven days a week [source: Maine Revised Statutes]. It is common to believe among many a barfly that on the seventh day, our Creator made beer and on the eighth he added pretzels. The good people of North Dakota, however, didn't get that memo. Sure, bars and restaurants here can serve south and pretzels, but not at the same time, according to some bizarre state law. Perhaps the deep and almost unwavering thirst caused by a lot of harsh knots caused a patron too much to overload him on the Light of Stroh. Perhaps the state is experiencing a shortage of and sodium. Whatever the reason, don't expect to enjoy a cold one with a pack of Rold Golds the next time you're hopping bar in Fargo [source: Cosme, Rothschild]. People tend to move at a slower pace towards the south. Call it a lifestyle choice, a means of fighting the south peeping peeping peeping or simply an incapacity to move to a fastest "Leisurely Amble" clip. The fact remains that people approaches life alone sweet time under the Mason-Dixon line. That's why a law of the Alabama wanted to accelerate things like a hotdog at a burger party. There is no time to stop and smell the roses when you vote in Alabama. The right of status requires voters to launch their cards within five minutes from entering a voting booth. In force since 1961 (first to check federal legislation on civil rights, such as the law on voting rights), the law requires violators to be banned from the pollutant place. Voters who need assistance can get a further time, but it's probably a good idea to make your mind on that race of animal control board Hotly contested before entering the stand [Source: Alabama code; Lawyers Committee for Civil Rights]. But once the little Johnny turns the big 1-3, feel free to ship it in a career as a trapezoid oscillator or barker carnival. The list of vocations for which parents cannot rent their minor children of age 12 and younger in Georgia includes gymnast, contourist, circus rider and acrobat, as well as clowns and wiring. Because these particular professions - on the contrary, say sweeper, alligator coach or flag-bearer - have been identified as particularly unsuitable for small children is not clear. Perhaps in the old days, it was a common way to get rid of some of your unwanted children. However, the consequences of this law are well established: a wrong condemnation can come with up to a year in the hammer and a maximum of \$ 1,000 fine [source: code of Georgia, Georgia criminal procedure]. Among the many mal of the company- crystal methanfetamines, gun violence, Nickelback - Flipper is probably not at the top of the list of most people. This has not stopped the legislators in Beacon, NY, to prohibit the arcade game once popular within the city's limits. Beacon is not the first place for the pinball. A number of great cities led the game until the 1970s, with officials who claim that Flipper was linked to the activity of the mafia, not to mention sucking time and money from the Americana youth (like the pool in "The Music Man." "However, unlike some of the other entries in this list, the anti-pinball law is not only still on books, but it is also in the execution phase. In 2010, the city forced a retro arcade museum to close its doors, quoting the flipper ban and threatening a \$ 1,000-a-day fine [source: Frauenfelder]. When Randy "Macho Man" Savage crushed Ricky's larynx "The Dragon" Steamboat with a Timekeeper bell during a 1987 meeting for the belt Wrestling championship, certainly seemed real. The blood that Hulk Hogan poured through the ring in a legendary summer Slam of 2005 beat down Shawn Michaels also seemed rather legitimate bad. Yet even the guestling diehard fans know in depth in that the drops of the thunder leg, debilitating holds sleeper and soap style opera shenanigans who go ahead Suspicion can be confirmed by Louisiana law. The "sport" of professional wrestling was illegal within state borders under a law banning boxing and wrestling events "fake contests or exhibitions". Issued in 1974, the law was amended to exempt professional wrestling from the ban in 2007 [source: Alabama Code Section 11-46-42.
