Just like the general knowledge assessment you will take at your nearest DMV exam office, this 2025 DPS written test practice simulator features 30 questions and requires at least 24 correct DPS written test answers. It covers all the major topics you will be assessed on during the real DMV permit test, which include rules of the road, pavement markings, traffic signals, road signs and alcohol awareness. In contrast to the real exam, our Alabama DPS test simulator will allow you as many attempts as necessary to hit a passing grade. The key to success during the real permit test is completing and passing our DMV test practice simulator as many times as possible before heading off to the exam office. Every new round will improve your confidence answering different types of permit test questions correctly, as the 30 questions presented on the DPS practice test for Alabama learners will change each time you use it. Like the assessment you will take at the DPS permit office in Birmingham, Mobile, Montgomery or elsewhere, this Alabama driving test simulator selects questions at random. We can guarantee that every round will contain some material relating to rules of the road, road signs and traffic signals, though there is no way to predict which questions these will be. It is likely that your score will increase and decrease round by round while you are first using the simulator, according to your confidence and recollection of the topics which come up. The idea is to continue re-taking the Alabama DMV learners permit practice test until you pass it with score substantially above 80% every time. This Alabama DMV exam simulator is quite different to the other permit test practice quizzes we provide, because it does not contain any study aids or other tools to help you answer questions. If you still need access to 'hint' and '50/50' lifelines to consistently achieve a passing grade, try one of our easier Alabama DPS written practice test quizzes like the permit test cheat sheet. When you have finished reading all the study material in the Alabama DMV handbook and are ready to take the simulator for a spin, make sure you copy of the study guide is out of reach. No learner's permit applicant will be allowed to take their driver's manual into the exam room, so you must not rely on it here. 80% Passing score 20 Questions 4 Mistakes allowed Are you preparing to navigate the scenic routes of Alabama or perhaps gearing up for the excitement of the Talladega Superspeedway races?
