## Absorb in a sentence

Absorb in a sentence manythings. Absorb in a sentence definition. Using absorb in a sentence. Absorb in a sentence in english. Absorb in a sentence as a noun. Absorb in a sentence verb. Absorb in a sentence short

I have enough acres and livestock to absorb some of the losses. I guess we won't have to absorb all that information. He had forgotten what it feels like to let go and let magic absorb him. That necklace will absorb new magic and prevent him from accessing the depths of his current shop. As they approached Jackson's car, he said, "I'm gonna need time to absorb all this before I can figure out what to do." She can absorb and channel other people's gifts. It is from such films that root hair absorbs all that plants need for their growth. In another form of apparatus it benefits from the property possessed by sodium potassium peroxide to give oxygen when smothered; the residual caustic soda and potassium produced by the reaction is used to absorb the carbonic acid of the expired air. Smart creams that allow the skin to absorb an optimal amount of sunlight. The subsoil does not infrequently contain materials that are harmful to the growth of crops, and roots that descend into it can absorb an optimal amount of sunlight. parts of the plant or be themselves damaged in contact with them. Exercise helps the muscles absorb glucose. The unexpected information was coming so fast it was hard to absorb. The submerged leaves are usually filament or narrow ribbons, thus exposing a large amount of surface to water, some of the dissolved gases of which they have to absorb and in which they also have to expel some gases. These are some of the issues that must absorb the energies of the growing generation of economists. Vitamin D helps the body absorb calcium and phosphorus. It wasn't designed to absorb the energies of the growing generation of economists. more conveniently prepared by passing the sulphur vapour over the red hot coal, the non-dense gases so produced are brought into a second tower containing plates on which a vegetable oil can flow to absorb any carbon bisulphide steam, and then into a second tower containing plates on which a vegetable oil can flow to absorb any carbon bisulphide steam, and then into a second tower containing plates on which a vegetable oil can flow to absorb any carbon bisulphide steam, and then into a second tower containing plates on which a vegetable oil can flow to absorb any carbon bisulphide steam, and then into a second tower containing plates on which a vegetable oil can flow to absorb any carbon bisulphide steam, and then into a second tower containing plates on which a vegetable oil can flow to absorb any carbon bisulphide steam, and then into a second tower containing plates on which a vegetable oil can flow to absorb any carbon bisulphide steam, and then into a second tower containing plates on which a vegetable oil can flow to absorb any carbon bisulphide steam, and then into a second tower containing plates on which a vegetable oil can flow to absorb any carbon bisulphide steam, and then into a second tower containing plates on which a vegetable oil can flow to a vegetable with nanoparticles that will absorb sunlight and transform it into electricity, transforming any object that we paint into a clean energy creator. In order to achieve their goal, they were imposed a double line of conduct: they had to absorb the powers of the doge, and also deprive the people of the voice they had in the management of state affairs from their presence in the conclave or general assembly of the entire community, which was still the source of every authority. His political and courteous employment, however, did not absorb all his time, and he contributed during his stay in Bavaria a number of to philosophical transactions. When the service is frequent enough to give a good power factor continuously, the steam locomotive cannot compete with the electric motor for the purpose Fast acceleration, because the engines applied to the axes of a train can absorb for a short time the power from the central station to a much greater extent than anything that a locomotive boiler can provide. loeb has discovered experimentally that the increase of metabolic products in the muscle has greatly increased its osmotic pressure, and therefore would absorb water from a relatively concentrated sodium chloride solution. all reflect and absorb its rays, and the first do but a small part of the glorious picture that sees in its daily course. the best way to absorb vitamins and minerals from food is from fresh and raw sources. mandatory service with colors is no longer universal in germany, since the general level of the country is elevated by successive flood deposits, the oldest river beds bury themselves, but being still connected with the most recent rivers at some point or other, they continue to absorb water. to control the speed and brakes absorb this energy, the brakes must be supplied. the power of green plants, not even specialized in any of these directions, to absorb some carbohydrates, in particular sugars, from the ground was demonstrated by acton in 1889. a soil can be physically humid; but if the plants absorb the water only with difficulty, as in a salt marsh, then the soil is, regarding the plants, physiologically dry. other exceptions are the "institutions of the Empress Maria," which absorb, among other things, the duties on gaming cards and taxes on public entertainment sites; the imperial civil list, although this does not exceed the sum fixed in 1906 (16.359.595 rubles;)! the expenses of the two imperial stationaries, 10,000,000 rubles per year, which constitute a secret service fund. The latter body, however, would have the power to absorb the head of the state if it showed signs of ambition. Whites and Indians are allowed to establish commercial stations to obtain special permits from the government, and Indians absorb much of retail trade. These substances absorb water and become pimal acids. hess, which has shown that acetone will absorb twenty-five times its volume of acetylene at a temperature of 15 ° c. under atmospheric pressure, and that, provided the temperature is maintained constant, liquid acetone will continue to absorb acetylene at the rate of twenty-five times its volume for each atmosphere of pressure to which the gas is subjected. these demanding tasks have not absorbed all its energies. he had, it is true, unable to prevent the preservation of the varsavia Grand Duchy from an alessandro of Russia; but with the help of great brethren and france (secret treatise of 3 January 1815) hadthe efforts of Prussia to absorb all Saxony, Bayaria was forced to disconnect the territories earned for her by Napoleon at the expense of Austria, Illyria and Dalmatia were regained, and and It was added in Veneto to constitute a kingdom under the crown of Hamburg; Whereas throughout the Italian peninsula the French has been replaced by Austrian influence. All recent innovations, all attempts made in the last hundred years to absorb the most trade. As the embryo develops, it can absorb all the food available and store, in its cotyledons or in its hypocott, what is not immediately necessary for growth, as a food reserve for use in germination, increasing the size to fill the embryo-sac completely; or its absorption power at this stage may be limited to what is necessary for growth and remains relatively small in size, occupying but a small area of the embryo-sac, which otherwise is filled with endosperm in which the reserve food is stored. But this one recipe could not absorb a title of all the prisoners waiting for exile. It had been prepared for a long time in the economic and administrative decline of the Empire and the constant influx of Germanic peoples into Roman territory for more than two centuries; But the power of the old civilization to absorb the new races was exhausted in the fifth century, and the political history of Europe was transformed into a different road. These sometimes completely absorb the shell on which they are placed, but then act as a substitute for it, and in any case, with their external growth extend the limits of the dwelling, so that the prisoner can grow in comfort without having to hunt or fight for a larger dwelling. Men do not eat an animal for which they have a reverential fear, or if they eat it at all, it is only in a sacramental feast and to absorb itself © his life and his holy property. Until now, Charles had tried to support the weakest Slavic power against the strongest; But now that Musovy seemed to disappear among the nations of Europe, Swedish statists naturally sought some compensation for the costs of the war before Poland had time to absorb everything. Thus Tertullian writes: "The water that carried the Spirit of God (probably considered as a shadow or a reflection-soul) has borrowed holiness from what has been brought upon it; for every underlying matter it must absorb and take the quality of that matter that overwhelms it; especially a body so absorbs a spiritual, because © this can easily penetrate and settle in it because of the substance. And in the exchange of goods, but only in the acquisition of real gold and silver, and knowing that the internal market could not absorb a share of the imported goods, the capitalists of Lisbon to send their ships to Antwerp (where a Portuguese base was in 1503), or in some other port near the central markets of Europe. I am clearly the result of the infection (if the extract of the soil has been boiled before the addition to theno nodules were produced and their presence allowed the plant to absorb free nitrogen from the air. Maze's observations show that the bacteria can also absorb free nitrogen when grown in FIG crops. In the deepest parts of this area bacteria absorb SH 2 and, as they grow, oxide and store sulphur; then ascending to more oxygen-powered planes, oxidizing the sulfur in SO 3. Thus, a form called Beyerinck's Photobacterium phosphforescens will absorb maltose, and become luminous if sugar is present, while P. Pflugeri is indifferent to maltose. A small Greek force in the Epirus theatre, and
the Montenegrins in northern Albania, were similar to absorbing the attention of the Turkish garrisons (three independent divisions) and conquering the territory. The heat is sufficient to keep the molten lead oxide, and the property to absorb the water while not touching a mercury globe. Each of these served as an example of what could be accomplished in the light of the new doctrine, which, taught in this way and in a wonderfully lucid style, was easily absorbed by many who found the most complete exposure in the Origin very difficult to absorb. It combines with other elements to form bromides, often with explosive force; phosphorus explodes in liquid bromine and ignites in vapour; Iron is occasionally used to absorb bromine vapour, potassium reacts vigorously, but sodium must be heated up to 200th C. The main use of bromine water. In northern neighborhoods rivers run along the valleys, receive drainage from the country up! On the one hand, absorb large inflows and move forward with ever increasing volume. Even the most transparent known bodies absorbed. All bodies when heated emit the same type of radiation they absorb- an important principle known as the principle known as the principle known as the principle fequal to j for bodies that do not absorb very quickly. The lower gas mantles absorb much of the light allowed by the photosphere, and especially to the limb and for the most reproducible rays, the loss of intensity is very marked. The alkaline solutions, in absorb oxygen and turn brown. The resistance of clay to water percolation depends mainly on the density of clay, while density is rapidly reduced if clay is allowed to absorb water. If this is done, the largest possible amount of clay will be slowly but surely forced into any space, and, being prevented from expanding, will be able to absorb more water. Richmond's earpiece had been selected by the conspirators as their figure-head mainly because © was known as a young man of skill, and why © He was not married and could therefore take Princess Elizabeth to his wife, and thus absorb the claimed Yorkist into his own. Ferrous solutions absorb the least powerful neighbor Zhupaniyas: If he had succeeded, he would have taken the title of Veliki Zhupan (Grand Zhupan). His claim is that the vapours that shine in the same circumstantial way absorb the Fiji. Another kind of war was about to absorb all their attention; The barbarians were attacking the borders of the Empire from all sides, and their advent once again changed Gallo-Roman civilization. These various benefits were, as a rule, only indirect methods that large landowners used to absorb the small owner. Drying oils absorb oxygen a little quickly and will dry to a film or skin, especially if exposed in a thin layer. Semidrying oils absorb oxygen more slowly than drying oils, and are therefore useless as paint oils. However, over time, they absorb oxygen sufficiently distinctly to become thickened. The property of semi-dry oils to absorb oxygen sufficiently distinctly to become thickened. The property of semi-dry oils to absorb oxygen sufficiently distinctly to become thickened. rapidly that spontaneous combustion will often occur. In the case of those oils which do not belong to the rape oils but show abnormally low saponification values, the suspicion is immediately raised that a certain amount of mineral oils (which do not absorb alkali and are therefore called "unsaponifiable") has been admitted fraudulently. Thus it indicates the way to apply an additional method to solve the isolated fatty acids, which do not absorb iodine, and in unsaturated fatty acids, which do not absorb iodine, and in unsaturated fatty acids, which do not absorb iodine, and in unsaturated fatty acids, which absorb iodine in various proportions as shown above. The rocks absorb to a fat in saturated fatty acids, which absorb iodine in various proportions as shown above. visit places of birth, places of monumental events such as battlefields or sites of great tragedies TM to absorb some of what happened there. Gerry, the station chief, carved up his departments a moment earlier. The stealthy Guardian crossed the threshold within ten meters of Xander, where he was able to absorb thoughts and manipulate minds. These closets are also used to absorb and mask smells. It can absorb up to 30 per cent of its weight in water and still dry. Body oils easily absorb them through your skin. Organic Life supplements are liquid vitamins, which means that the body does not need to break a solid compound and is therefore free to absorb all the important for the health of a dog in a shape that can easily absorb. The silk kimono is preferred by many women for its silky softness, the fresh touch and the ability of the fabric to absorb and maintain deep colors and rich prints. The wear of the linen helps to keep fresh and dry because © can absorb up to twenty percent of its unique microstructure that allows children's clothing to absorb and evaporate the breathing faster than other tissues. Also, stay away from dark colors, like black or brown, as not only do they look tired and boring, but dark colors absorb the heat, which in turn will make you feel warmer. In addition to being light, they absorb sweat, allowing you to feel fresher during the exercise. They absorb sweat and keep their feet cold. When you buy ped socks for sport, look for socks with an amortized foot bed to help absorb the shock. The reinforcement is made from thicker layers of tougher fabric, such as cotton, which absorbs the extra wear and tear that comes naturally through bending, stretching and walking. These fabrics absorb the extra wear and tear that comes naturally through bending, stretching and walking. These fabrics absorb the extra wear and tear that comes naturally through bending, stretching and walking. to absorb the water from the sink. If you are planning to exercise also standing, make sure your shoes have a good arch support, and a high shock heel to absorb the shock absorb chemicals into your body. Students who spend long nights piling up and not getting enough sleep can absorb enough knowledge to pass the test, but rarely memorize most of the knowledge acquired in long-term memory. While these contact lenses can absorb pollutants more easily, they are the most comfortable. Maui Jim polarized filters absorb 99,9 percent of the reflection. The new structure allows the lenses to absorb light. When UV exposure ends, molecules resume their normal form and lose their ability to absorb light. The frame should have padding on the bridge of the nose and in temples so that they will absorb as much shock as possible in the event of a direct hit. The top that goes around the IR end is bulbous and is designed to absorb most of the impact since the remotes that flew from the hands had that fine slap against TV. They cover the board the same way that the Wii Remote covers do to absorb the Pinot noir grapes will absorb the taste of the soil where the grapes are grown, so it is very important to collect carefully where the grapes will be planted. Some smartphones can cost several hundred dollars and this is not a spending that the average consumer wants to absorb. The skin covers are designed to absorb the shock, so if there's a faceplate impersonator out there who wants to take a walk, it's this guy. Once the victim is under medical care, doctors have the opportunity to treat the person to with a specific remedy to counteract the poison (antidote) or with activated charcoal to absorb the substance within the digestive system of the individual. Some people with CF cannot absorb enough nutrients from the food they eat, even with specialized diets and enzymes. Children who cannot or do not want to eat, or who are unable to absorb nutrition) or by a tube inserted in the gastrointestinal tract (enteral nutrition). Others have many health problems during life, including mental disability and the inability to absorb nutrients through the intestinal tract. So the bone absorbs more X-rays than the muscle or fat, and tumors can absorb more X-rays than the surrounding tissue. Diarrhoea and check why © the more fluid passes through the small intestine (colon) that that organ can absorb. As a rule, the colon can absorb more fluid than is required daily. Primary tumours or cells with metastases absorb the radioactive material and present as dark spots on the scan. Topical steroids are not also used on children because © Their bodies can absorb steroids into the drug. The porphyrins and protoporphyrins in the sample absorb light and fluorescent energy, or glow. Rarely, if a bruise is so large that the body cannot absorb it completely or if the site becomes infected, it may be necessary to remove it surgically. The permeable gas-tight wear lenses (RGP) are made of plastic that does not absorb water but are more permeable to oxygen than the plastic used for daily wear lenses. Soft lenses with prolonged wear are highly permeable to oxygen, are flexible due to their ability to absorb water, and can be worn for up to a week. In addition, damaged kidneys cannot activate vitamin D needed to absorb calcium. This condition usually results from a food shortage, but may also be due to an inability to absorb folic acid (malabsorption). Smoking increases the risk of developing this condition by interfering the absorption of vitamin B12 is another type of megaloblastic anemia that develops when the body does not absorb enough of this nutrient. Vitamin C is known for aid to airon and folate supplements. The patient may experience a number of symptoms related to inflammation and the chemicals it releases, and/or lack of ability to absorb nutrients from food, which may cause malnutrition. People with celiac disease may also experience lactose intolerance because © do not produce enough of the enzyme lactase, which breaks the sugar in the milk in a form that the body can absorb. Poiche. © celiac disease
affects the body's ability to absorb nutrients from food, several tests may be ordered to look for nutritional deficiencies. Villi-Tiny, finger-like projections that allow the small intestine to absorb nutrients from the food. This refers to a condition that can develop when a large amount of intestine needs to be removed, making the intestine less able to absorb some nutrients and enzymes. Children can absorb a lot of knowledge from their parents about money management. Girls should use the tampon with the minimum absorption necessary to absorb the flow. The cells need iodine to make the hormone, so it absorbs any iodine found in the body. Malabsorption-The inability of the digestive tract to absorb; This, combined with diets that cannot meet daily needs, is a common pathway for iron deficiency and anaemia of iron deficiency. Vitamin C is indicated to help absorb iron in your diet and iron supplements. The deficiencies are rare except aging, when integration can help absorb iron in your diet and iron supplements. The deficiency and anaemia of iron deficiency anaemia of iron deficiency and anaemia of iron deficiency anaemia of inability to absorb additional calcium. Some children recover completely, while others may have a variety of life disorders, including an inability to properly absorb more lead. The average child who uses the typical amount of fluorinated toothpaste will swallow or absorb from 0,5 to 1,0 mg. fluorine for brushing. Eggs not only absorb the shock of the jump. Watch some of his biggest videos (Thriller and Billie Jean to start) to absorb his dance style. The black fish will attract and absorb any negative luck destined for your road. Unfortunately, because @ Human hair wigs have porous threads, these wigs can absorb smells and must be washed frequently to keep their bounce and quality fresh. follicles absorb laser energy and then are destroyed by it. Stimulated cells then absorb nutrients and dispose of waste products at a much faster rate. While there are a lot of hair products on the market that can add body and lifting, very few can promise to absorb natural oils. Those voids are what causes the hair to curl, waves, waves, absorb enough moisture from the air to become sparkling. When Mason talked about the atmosphere with regard to education, he believed that children absorb their environment. Does it absorb water faster than others? This is not necessarily because © fractions are so difficult inside and of themselves ©, but the concept can be more abstract for children and more complicated to absorb. It is a medical condition in which the body becomes less able to absorb glucose, a type of sugar, from the blood. Usually the pancreas produces insulin and the insulin to absorb the sugar. This did not work with university students as some insurance prescription programs do not cover birth control, and therefore will not help to absorb this increase in costs. But others argue that the process of pastoralisation kills the beneficial nature of vitamins because © the cooking changes the molecular structure so that the body can no longer absorb them. They are the key and, as noted, they are designed to absorb the tension forces. First, the darker the fabric, the more a natural SPF contains because © does not absorb most of the water, then lay it flat dry. Age is also an important factor to consider when discussing the need for dietary supplements for vitamin B12 deficiency, since the body becomes less able to absorb certain vitamins and minerals over time. This method provides a new way for the body to absorb essential vitamins better. However, these individuals are able to successfully absorb all the B12 such as scurvy. While vitamin supplements are better than nothing, your body will not absorb the same amount of vitamin C from a pill as it will be from an orange food or other rich in C. With these amino acids out of the picture, your brain is more able to absorb the tryptophan. Tryptophan is one of the least abundant aminos, and it means that you have to take tryptophan with foods that are low in other amino acids to make sure it is absorbed properly. Poiche. © the body K2 alone, it is rare that people are lacking unless their bodies are able to absorb the molecule. The widespread use of solar cream has induced humans to block the absorption of vitamin D from the sun, and therefore intake of food and often supplementation are necessary forappropriate amount of vitamin D in your body. You also need vitamin D to absorb vitamins into food much easier than it can absorb pills compounds, so make sure you get most of your nutrients therefore take specialist advice. It is also necessary to heal wounds and it is necess Some of these may be attributed to the use of the solar block; However, many people simply cannot absorb vitamin D well. Because of the different rates at which our bodies absorb vitamin D well. Because of the different rates at which our bodies absorb vitamin D well. Because of the different rates at which our bodies absorb vitamin D well. Because of the different rates at which our bodies absorb vitamin D well. Because of the different rates at which our bodies absorb vitamin D well. Because of the different rates at which our bodies absorb vitamin D well. Because of the different rates at which our bodies absorb vitamin D well. Because of the different rates at which our bodies absorb vitamin D well. Because of the different rates at which our bodies absorb vitamin D well. Because of the different rates at which our bodies absorb vitamin D well. Because of the different rates at which our bodies absorb vitamin D well. Because of the different rates at which our bodies absorb vitamin D well. Because of the different rates at which our bodies absorb vitamin D well. Because of the different rates at which our bodies absorb vitamin D well. Because of the different rates at which our bodies absorb vitamin D well. Because of the different rates at which our bodies absorb vitamin D well. Because of the different rates at which our bodies absorb vitamin D well. Because of the different rates at which our bodies absorb vitamin D well. Because of the different rates at which our bodies absorb vitamin D well. Because of the different rates at which our bodies absorb vitamin D well. Because of the different rates at which our bodies absorb vitamin D well. Because of the different rates at which our bodies absorb vitamin D well. Because of the different rates at which our bodies absorb vitamin D well. Because of the different rates at which our bodies absorb vitamin D well. Because of the different rates at which are the di (80 mcg): It helps the body absorb calcium in addition to its role in blood clotting. Similarly, you may need additional vitamin A if you have a condition that affects your body's ability to absorb vitamins B, making a liquid supplement desirable for some individuals. Some argue that the human body can absorb more nutrients within all in a liquid vitamin than from multivitamins in compressed form. The term "mycelized" refers to a chemical process that changes the molecular structure of the compounds in question so that the body can absorb them more easily. Copper also helps us absorb iron and prevent anemia. This will stop against your car to absorb food calcium. The padding is cured by shaped antibacterial chamois designed to absorb sweat and reduce bacterial accumulation on longer trips. They only use natural shells that cook with sausage, absorb the taste and are not gummy. Women with low stomach acid were able to absorb 45 percent of calcium citrate, however. Now you understand why you look so unevenThe conventional cotton undercarri absorbs moisture and cotton fibers inflate that closes the fabric pores forming a barrier against water vapor diffusion. Quite clearly the cooling unit lacks the ability to absorb enough heat to allow an effective heat dissipation. Viscida silk also needs to absorb the kinetic energy of the fly, corresponding to a high value. In this case we will also absorb the kinetic energy of the fly, corresponding to a high value. In this case we will also absorb the kinetic energy of the fly, corresponding to a high value. In this case we will also absorb the kinetic energy of the fly, corresponding to a high value. In this case we will also absorb the kinetic energy of the fly, corresponding to a high value. In this case we will also absorb the kinetic energy of the fly, corresponding to a high value. In this case we will also absorb the kinetic energy of the fly, corresponding to a high value. In this case we will also absorb the kinetic energy of the fly, corresponding to a high value. In this case we will also absorb the kinetic energy of the fly, corresponding to a high value. In this case we will also absorb the kinetic energy of the fly, corresponding to a high value. In this case we will also absorb the fly also a ethereal atoms, ethereal atoms, the ethereal atoms, the ethereal world is invisible to us. Combined antibacterial effect and ability to absorb exudated even under high compression. All these medications should not require a secondary dressing, since their absorbent padding must absorb the minimal exudate from the wound. An intern must absorb a large amount of information. A model will be built that will be sufficiently flexible to absorb the specific requirements of each region. A drying agent, for example, silicone gel can be placed on the shelves to absorb moisture in the air. I am armed with a small potted geranium, which will absorb your goodness, leaving you completely defenseless! The larvae have outer gills, which absorb oxygen directly from the water. Rice will absorb vinegar and become shiny. The basic idea is that the absorption function will greedily clutter any subject that is provided. The starch granules absorb the liquid, causing the sauce to thicken. These units use limestone to absorb the sulphur that produces chalk
as a waste product. Monk is an equally ominal figure, which seems to absorb light as a black hole in space. The basic principle is that some metal alloys absorb the statement at a very deep level. osteoporosis occurs as a result of the inability of the body to absorb sufficient levels of calcium. A small severely inflamed intestine cannot absorb vitamins and minerals efficiently, which can cause a deficiency. Eating gluten causes the lining of the small intestine to damage itself thus reducing the capacity of celiac to absorb certain foods. It can absorb a human soul to make their offerings, transforming the affected person into an almost invulnerable servant. Sundberg and Meller (1997) argue that 1 gram of iodine cadexomer can absorb up to seven milliliters of body fluid. Drinking a glass of vitamin C-rich orange juice with a meal also helps to absorb iron from your food. The couple of lead reindeers would absorb 14,3 quintillion joules of energy per second each. Your equipment will remain light because it will not absorband become heavy. Leave ten minutes to absorb, then remove excess with wet cotton squares or tonic lotion. Forgive enough to absorb the lungs of a large carp, but with enough reserve to stop the fish when necessary. Twenty-one participants were classified as having lactose malabsorption and how to be able to absorb lactose. It's made of a polyester T-shirt that doesn't absorb water. At the top of these trees it will absorb many impurities in the air, for example particles of toxic metals, such as lead. A sheet of kitchen towel placed in the bag will help to absorb any moisture. Merino can also stop, absorb and evaporate moisture both in its liquid and vaporous state. Water or wax shields can be used to absorb many nutrients useful to provide their growth. These microbes absorb soluble nutrients and the enzymes test for further chemical decomposition of the material. In fact, the isolated system doesn't absorb or emit anything... and therefore cannot be perceived by any observer. Change socks every day or if necessary twice a day, wear cotton socks to absorb breathing. Instead, they absorb visible light through a range of wavelengths suitable for any number of environments. Special documents are currently available which can absorb pollutants AbFoam is a polyurethane foam with open cells specially designed to absorb noise on a wide range of frequencies. Various body tissues absorb radiation at different speeds, causing various shadows to appear on the plate. The new cellulose insulation can absorb and release water vapour without significant loss of thermal resistance. Children feed the sneezing seagulls while their grandparents sit back and absorb the sea breeze. This is your chance to absorb the sea breeze. This is your chance to absorb the sneezing seagulls while their grandparents sit back and absorb the sea breeze. some absorb the sweat. In both cases the deviated tissues absorb the water and swell considerably. The armor of the new uniforms will absorb the shock of a bullet much better than the current vest. It has to supplement its diet with living enzymes to help absorb vitamins in the body. In some cases the NEO is held together too weak to be able to absorb the energy transfer required for deflexion. It is an energy reducing agent, a property used in its application during the year gas wings to absorb oxygen, and in photography as developer. European countries absorb most of the Italian maritime trade, while most of the passenger traffic goes to North and South America. The plants are furnished cabbage will absorb from the earth and from its leaves more than ten tons of water a day when the Roman Church has never ceased its efforts to absorb this ancient community. Hess, who has shown that acetone will absorb twenty-five times its acetylene volume at temperature 15th to C. under atmospheric pressure, and that, provided that the temperature is maintained constant, Liquid acetone will continue to absorb acetylene at the speed of twenty times its volume for each pressure atmosphere to which the gas is subjected. Light from the stars at Academy of 1853, not only stressed that the electric spark produces two overlapping spectra, one from the gas and the incoming this phase the gas and the incoming the incoming the same refractibility as those it can absorb. During this phase the gas and the incoming the incomin air have withdrawn the heat from the left regenerators, which have been so cooled, while the combustion products have deposited the heat in the couple of right regenerators, which have been so heated. After a few thirty minutes this condition of things is reversed by rotating the valves K and K'90th 131;~ "In the positions indicated in hatched lines, when deflecting the gas and air entering the generators on the right, so that they can absorb by passing the heat that has just been stored there; Then they pass through the right and the doors into the workroom, where as before they mix, burn and heat the charge. Victory had been won over the archbishop; but a new danger had developed during the 13th century in the growth of a patriotic class, which, like many other cities, threatened to absorb bromine vapour, potassium reacts vigorously, but sodium has to be heated up to 200x0x0x0c. The main use of bromine in analytical chemistry is based on the oxidising action of bromine water. The Palestinian movement has not been able to absorb the consequences of these events. It also used silicon gel crystals to absorb moisture. Sit down in front of a drink and absorb the beautiful view and the beautiful colors. Termination resistance cable ends absorb the energy of the chassis, preventing of the signal back along the cable. The bare wood, which absorbs linen oil, is better than painted wood. Carbon dioxide molecules absorb radiant heat at a wavelength of fifteen microns. I wish I could absorb the information I need for my anatomy ending through osmosis in my brain. The child also experiences hormonal changes that help them absorb fluids in the body and away from the lungs during work and delivery. They learn our language models. use our vocabulary; imitate our gestures, absorb our fears and more. Secondly, the fabric of a smock coating is extremely diapers is to have both liners (to absorb waste) and a cover (to avoid losses). Look for materials that absorb sweat and allow your feet to breathe as a mixture of Merino wool and cotton. You can also try to use liner socks which are known to absorb water and are very useful to prevent soil erosion. There are also several materials available: The types of towels tend to absorb stains and usually do not need to iron. The purpose of external shells is not to absorb the impact, but to slip along the impact. The perimeter's weight in liquid many times, the liquid in the intestinal tract or in the cat's lungs is what is absorbed. Not only a cat food must have the nutrition required by your cat, nutrients must be easy for your animal to digest and absorb. This can cause imbalances and inability of the body to absorb some nutrients; This can eventually cause kidney failure. The precision of the balance and ability of the cat's flexible body to absorb the impact often means that a cat can land unharmed, even from a height of three floors. Each single crystal can absorb more than the traditional cluster clay litter, and also absorb odors. If it minutes so that it can absorb sugar. RealClima, a website run by climate scientists, states that increases the acidity of ocean waters. Cork is both renewable and biodegradable, but more and more owners of houses install it because of its ability to absorb the impact. From there, they absorb the rays of the sun and convert them into energy for the building. Trees absorb carbon from the atmosphere, so the principle of carbon the sun and convert them into energy for the building. Trees absorb the rays of the sun and convert them into energy for the building. Trees absorb the rays of the sun and convert them into energy for the building. absorb heat and radiate it into the house, often providing a large percentage of its heating needs. The ability of oceans to absorb and store carbon dioxide decreases as water temperatures increase. Milk card is used to reduce inflammation of the liver coating and allow silymarin to absorb tissues. In addition, a deep and rich wall color will absorb light rather than reflect it in the room, keeping your large screen free from light. Some ceiling tiles help to absorb sound, which is perfect if you play a tool or simply want to be able to watch TV at a decent volume while all others are asleep! Cold colors such as blue, purple and green absorb light rather than reflect it, making the room feel physically colder. test the acoustics in the room; if there are too many hard surfaces, consider laying carpets or installing curtains to help absorb sound and prevent echoes. The wool actually helps the purity of indoor air because it has the ability to absorb pollutants and gas much faster and easier than nylon.
