Genshin Impact Wish Event Banners Version 1.0 There was that Venti event banner that spanned from the 28th of September to the 18th of October. The banner saw a probability increase for Venti/Barbatos, the Anemo Archon. Next, there's the Klee banner, everyone's new favourite loli (?). This current banner will be running from the 20th of October to the 9th of November. Version 1.1 Zhongli's banner was expected to come right after Klee's banner, and introduced on the 1.1 update. However, he has been pushed back, and Childe's banner will first take the slot. Accompanying him in RATE UP is Ningguang, Diona, and Beidou. Debuting along with the Childe banner, the Wanderlust Invocation standard banner has been replaced with probability up for Mona, 5-star Hydro user, Keqing - 5-star Electro sword user, and Qiqi - 5-star Cryo sword user. After the Childe banner, there'll be a one day gap before we get the Zhongli banner. This banner will see a probability increase for Zhongli, a Geo user. The Zhongli banner will also see Xinyan, Razor, and Chongyun getting probability increase. The end of Zhongli's banner will also see the expansion of the Dragonspine map in the game. This update will arrive on the 23rd of December 2020 to the 12th of January 2020. This also means that the new banner featuring genius alchemist, Albedo will arrive! It also features four star characters - Bennett, Sucrose, and Fischl.Advertisement. Scroll to continue reading. Version 1.2 Albedo is gone, and that means Ganyu is here. She will be accompanied with Xiangling, Xingqiu, and Noelle as the 4-star characters. Ganyu is a 5-star cryo bow user, and she was released on the 12th of January 2021. Launched along with her banner is her exclusive story quest, which you will need a story key to unlock. He will be accompanied by Diona, Beidou, and Xinyan. As seen on the image above, Keqing will be the next character to get a rate-up, which will debut on the 17th of February 2021 right after Xiao's banner ends.
