Find sources: "Russell Hobbs" - news · newspapers · books · scholar · JSTOR (April 2024) (Learn how and when to remove this message) A CP1 coffee percolator After serving with the British Army's REME in World War II, William Russell (22 July 1920 - 16 February 2006), from High Wycombe, joined home appliance manufacturer Morphy
Richards and helped to design a pop-up toaster, an electric iron and a hairdryer, when working as Chief Development Engineers, and he also worked for Morphy Richards, as manager of the South African division of the company. He
had returned to the UK in 1952, after a disagreement with Charles Richards over sales policy, and worked for another company, where he was trying to design a coffee percolator, with reference to a German patent. Later in 1952, Bill Russell had a disagreement with Donal Morphy and joined Hobbs to form Russell Hobbs Ltd. In 1952, they designed
the world's first automatic coffee percolator, the CP1, with Russell's ingenuity and started the Russell Hobbs company at 1 Bensham Lane in Broad Green, Croydon, Surrey, near the A213/A235 junction south of Mayday Hospital. Russell was in charge of product development, and Hobbs was the sales director. Russell's de facto ultimate safety test for
any new product was to pour half a pint of boiling gravy on it. In the late 1960s it was chiefly manufacturing automatic electric coffee pots, vapour-controlled electric kettles, and tea makers. In 1952, the company introduced the world's first electric coffee pots, vapour-controlled electric kettles, and tea makers. In 1952, the company introduced the world's first electric coffee pots, vapour-controlled electric kettles, and tea makers. In 1952, the company introduced the world's first electric coffee pots, vapour-controlled electric kettles, and tea makers. In 1952, the company introduced the world's first electric coffee pots, vapour-controlled electric kettles, and tea makers. In 1952, the company introduced the world's first electric kettles, and tea makers. In 1952, the company introduced the world first), [4] designed in October 1955, used
a bi-metallic strip at the rear of the kettle: steam was forced through an aperture in the lid of the strip, which this actuated a switch, turning the kettle was introduced, which was manufactured for the next thirty years, and was possibly the company's best-known product.[5] In 1972, Russell & Hobbs produced the world's
first all-plastic kettle, called "The Futura", which was spout-filled and equipped with an external liquid level indicator. The model was designed by Julius Thalmann. It still held to the traditional shape of a kettle, with radical new styling facilitated by the malleability of its heat-resistant plastic construction. The Futura was retailed at the expensive end
of the market (£9.65p in 1972 prices) and received good reviews in the press on its commercial release. However, it did not sell well as the 1970s progressed. Despite its eye-catching innovative elements, the plastic used (Noryl) was found to heat-discolour after regular use. The model was slow to boil and customers were put off by the spout-filling
design which prevented a view inside the kettle to confirm its clean condition. In 1978, the company adjusted the design in an attempt to overcome its adverse market reputation, changing the plastic used to Kematal, which had greater heat-resistant properties, but sales didn't greatly improve and the model was discontinued in 1979 with the advent
of the tall "Jug kettle" design from Redring with its Autoboil model.[6] Millennium 1.7 L kettle that used a special 3000 W/240 V printed thick film OPTEC flat disc element to boil water in about half the time,[7][8] with a limescale filter. The company designed the world's
first fully programmable kettle, the 'Millennium 2' (M2).[better source needed] Russell Hobbs Legacy kettle The company also distributes: Bread makers Electric shavers (after merging with Remington) Coffeemaker Food processors Irons Juicers Microwave ovens Smoothie makers Toasters Sandwich
toasters Vacuum cleaners Rice cookers Heaters Regent Mill at Fir Street in Failsworth, next to the Rochdale Canal In 1962, they[who?] needed to expand the company to Tube Investments (TI), a conglomerate of electrical appliance brands who also owned Creda (a
competitor of Hotpoint - GEC at the time owned both Hotpoint and Morphy Richards). (owner of Creda), and Simplex-GE, (a joint venture of TI with GE of America) that made electrical switching equipment. Simplex House in Alperton,
Middlesex. The Domestic Appliance division of TI was later based at Radiation House in Neasden. In the mid-1970s Dimplex[when?] diversified into coffee percolators and electric kettles due to former Russell Hobbs engineers joining the company. The heyday of the TI Group was in 1978, but by the early 1980s, the TI Group was facing difficulties,
with its workforce halving. TI Group formally referred to Russell Hobbs. TI sold off their consumer brands, with the company going to Polly Peck International, on 11 December 1986 for £12 million, along with Tower Housewares (a utensil manufacturer based at Wombourne near Wolverhampton). The subsidiary was known as
Russell Hobbs Tower. Creda would be sold to GEC in June 1987. In the late 1980s Russell Hobbs sponsored sports events. Following the collapse of Polly Peck, Russell Hobbs Tower was bought by Manchester-based Pifco Holdings on 5 April 1991. By the end of the decade, Russell Hobbs had become the most important of Pifco's various brands and
product lines.[9] Salton, a US manufacturer of kitchen appliances, bought Pifco in 2001[10] and continued to focus on developing Russell Hobbs as one of the company's key brands. In December 2007, two companies in the small household appliance business, Salton, Inc. and Applica Incorporated, merged. Applica became a wholly owned subsidiary
of Salton. In December 2009, the combined company (formerly known as Salton, Inc.) changed its name to Russell Hobbs, Inc. [better source needed] Russell Hobbs, Inc. [better source needed] Russell Hobbs, Inc. and in 2011, the Russell Hobbs business in the UK
was reorganised to become Spectrum Brands (UK) Ltd. Spectrum Brands in the UK now design and manufacture consumer products in addition to Russell Hobbs, including the brands Remington, IAMS, Eukanuba, Tetra, FURminator, Rayovac and VARTA. ^ SPECTRUM BRANDS (UK) LIMITED ^ 'ukmade' website, entry for Russell Hobbs (2018). ^

was 20,680.[4][5] Historically in Lancashire, Failsworth until the 19th century was a farming township linked ecclesiastically with Manchester.[6] Inhabitants supplemented their farming income with domestic hand-loom weaving. The humid climate and abundant labour and coal led to weaving of textiles as a Lancashire Mill Town with redbrick cotton
mills. A current landmark is the Failsworth Pole. Daisy Nook is a country park on the southern edge. Failsworth derives from the Old English fegels and worth, probably meaning an "enclosure with a special kind of fence".[7] Early settlement rested on a road that runs today between Manchester and Yorkshire. This Roman secondary road formed part
of a network from Manchester up north, probably to Tadcaster near York.[8]: 5 The section that ran through Failsworth is still known as Roman Road. It was built above marshland and laid on brushwood with a hard surface. Roman Road has also been known as "Street", a Saxon term meaning "metalled road", indicating that it was also used that later
period.[8]: 5 Early sources suggest the area was occupied in Saxon times.[8]: 5 The small hamlet of scattered dwellings made of rough local stone, mud and clay with thatched roofs, may have been stood on ground higher than the surrounding marshland. Daily life would have centred on animal husbandry and agriculture.[8]: 5 Unmentioned in the
Domesday Book of 1086, Failsworth appears in a record of 1212 as Fayleswrthe, a settlement was documented as a thegnage estate or manor comprising four oxgangs of land. Two oxgangs at an annual rate of 4 shillings were payable by the tenant, Gilbert de Notton, to Adam de Prestwich, who in turn paid tax to King John.[7][9] The other two
oxgangs were held by the Lord of Manchester as part of his fee simple. The Byron family came to acquire the whole township in the mid-13th century. Apart from a small estate held by Cockersand Abbey, Failsworth passed to the Chetham family and was then sold on to smaller holders.[9] By 1663, 50 households were registered.[8]:6 Life centred on
natural resources, agriculture and stock farming, with many were employed as labourers to work the land, though tradesmen such as a tailor, a felt maker, a shoemaker, a joiner and a weaver supported them. The earliest record of a place of worship is Dob Lane Chapel, dating from 1698.[8]:6 The Parish Church of St John was founded in 1845 In
1774, the 242 Failsworth households contained some 1.400 inhabitants,[8]: 6 of whom a high proportion were involved in cloth manufacture. Development of the English textile trade was backed by important legislation between 1500 and 1760: a number of acts were passed to encourage it by the compulsory growing of flax. Grants were made to flax
growers and duties levied on foreign imports, though Manchester's extensive linen trade used yarn imported from Holland and Ireland.[8]: 6 In 1914 the regular Daisy Nook Easter Fair ceased with the outbreak of the First World War, but resumed in 1920. On 8 June 2007, a 1946 work by L. S. Lowry entitled "Good Friday, Daisy Nook" sold for
£3,772,000, then the highest bid ever paid for one of his paintings.[10] Another painting by Lowry from 1953, "Fun Fair at Daisy Nook", sold for £3.4 million in 2011.[citation needed] Timeline of Failsworth 1212 - First official record of Failsworth in King John's Great Inquest of Service[8]: 66[11] 1212 - North-western portion of land held by the Lord

[8]:67 1974 - Failsworth becomes part of the Metropolitan Borough of Oldham.[8]:67 1991 - Population 20,999[8]:67 1993 - The bicentenary of the former Failsworth Urban District council Lying within the historic county boundaries of
Lancashire since the early 12th century, medieval Failsworth formed a township in the parish of Manchester Poor Law Union, a social security unit.[3] Its first local authority was a local board of health set up in 1863 and responsible for standards
of hygiene and sanitation.[3] The board constructed Failsworth Town Hall in 1880.[12] After the Local Government Act 1894, the area became Failsworth Urban District within the administrative county of Lancashire.[3] In 1933 came a small exchange of land with neighbouring Manchester; in 1954, parts of Limehurst Rural District were added to
Failsworth Urban District.[3] Under the Local Government Act 1972, Failsworth Urban District was abolished. Since 1 April 1974 it has formed an unparished area of the Metropolitan Borough of Oldham, a local government district within the metropolitan county of Greater Manchester.[3][13] Failsworth contains two of the twenty wards of the
Metropolitan Borough of Oldham; Failsworth East and Failsworth West. Failsworth West. Failsworth West. Failsworth West. Failsworth UK Parliament constituency), represented in the House of Commons by Lucy Powell MP of the Labour Party. Further information: Geography of Greater Manchester At 53°30′37″N 2°9′27″W / 53.51028°N 2.15750°W / 53.51028; -2.15750
(53.5102°, -2.1575°) Failsworth lies 163 miles (262 km) north-north-west of London, as the southern tip of the Metropolitan Borough of Oldham, sharing borders with Manchester (north to south-west) and Tameside (south to east). It is traversed by the A62 road between Manchester (north to south-west) and Tameside (south to east).
Rochdale Canal, across its north-west corner. The M60 motorway passes through. For the Office for National Statistics, Failsworth counts as part of the Greater Manchester Urban Area.[14] The land in Failsworth slopes gently from east to west away from the Pennines and from brooks that bound it on the north-west (Moston Brook) and south-east
(Lord's Brook). Failsworth has a country park, Daisy Nook, on undulating wooded land on its eastern border largely belonging to the National Trust. It is suited to walking, horse riding, fishing and other pursuits. Further information: Demographics of Greater Manchester Population growth in Failsworth since 1901 Year 1901 1911 1921 1931 1939
1951 1961 1981 1991 2001 Population 14,152 15,998 16,973 15,726 17,505 18,032 19,819 20,951 20,160 20,007 Source: A Vision of Britain through Time[15][16][17] Failsworth grew as a mill town around the hat-making industry, which continues in the town. This began as a cottage industry before the firm of Failsworth Hats was set up in 1903 to
manufacture silk hats. For a time the company had a factory near the former Failsworth Council offices and it remains in the area to this day.[18] Other activities include electrical goods manufacture (such as Russell Hobbs) by Spectrum Brands, formerly Pifco Ltd), and plastic production and distribution by Hubron Ltd. In July 2007, the Tesco
supermarket chain opened a 24-hour Extra branch superstore on the banks of the wharf. The move was opposed by shop-owners, who claimed they would have lost customers and may have been forced to close.[19][20][21][22] Tesco's arrival had been expected to be a catalyst bringing other stores, bars and restaurants to Failsworth.[23] The only
other large store is a branch of Morrisons housed in a building constructed on the demolished site of Marlborough No. 2 Mill. Failsworth Pole in Oldham Road was first raised in 1793 as a "political pole", although a local historian suggests there were others before and that maypoles probably stood there for centuries. It now stands
on a site from which an earlier one blew down in 1950. After a major restoration of the Pole, clock tower and gardens in 2006, a bronze statue of Benjamin Brierley was placed in the gardens. [24] At the road junction of the A62 with Ashton Road West stands a cenotaph built in 1923 for over 200 Failsworth men who were killed in the First World War.
Attendances at the cenotaph on Remembrance Sunday remain high at about 2,000.[25] The annual parade is led by 202 Field Squadron, RE (TA),[26] which is based in Failsworth. In June 2007 the war memorial was rededicated after a £136,000 makeover and opened by Colonel Sir John B. Timmins. The local comprehensive school is Co-op Academy
Failsworth, which moved to a new building in 2008 from two buildings known as Upper School and Lower School. It caters for students aged between 11 and 16. The £28-million project brought the town's secondary schooling to come under one roof. It has specialist sports college status.[27][needs update] School Type/Status Headteacher OfSTED

thoroughfare is Oldham Road (A62) between Manchester and Oldham. The M60 is an ring-road motorway circling Greater Manchester, with access via Junction and other notable changes to the A62. It led to several rows of buildings around the junction being demolished.
There are frequent buses through Failsworth between Manchester city centre and Oldham on First Greater Manchester city centre and to Huddersfield/Saddleworth via Oldham, with services 180 and 184. Other bus destinations from Failsworth are Ashton-under-Lyne,
Chadderton, Huddersfield, Rochdale, Royton, Saddleworth, Shaw & Crompton and Trafford Centre. Failsworth tram stop in Hardman Lane is on the Oldham & Rochdale line of the Manchester and north to Shaw & Crompton or Rochdale via
Oldham. At off-peak times, trams run every 12 minutes to East Didsbury and Rochdale via Oldham Loop line serviced by Northern Rail services to Manchester Victoria or Rochdale via Oldham Loop line serviced by Northern Rail services to Manchester Victoria or Rochdale via Oldham Loop line serviced by Northern Rail services to Manchester Victoria or Rochdale via Oldham Loop line serviced by Northern Rail services to Manchester Victoria or Rochdale via Oldham Loop line serviced by Northern Rail services to Manchester Victoria or Rochdale via Oldham Loop line serviced by Northern Rail services to Manchester Victoria or Rochdale via Oldham Loop line serviced by Northern Rail services to Manchester Victoria or Rochdale via Oldham Loop line serviced by Northern Rail services to Manchester Victoria or Rochdale via Oldham Loop line serviced by Northern Rail services to Manchester Victoria or Rochdale via Oldham Loop line serviced by Northern Rail services to Manchester Victoria or Rochdale via Oldham Loop line serviced by Northern Rail services to Manchester Victoria or Rochdale via Oldham Loop line serviced by Northern Rail services to Manchester Victoria or Rochdale via Oldham Loop line serviced by Northern Rail services to Manchester Victoria or Rochdale via Oldham Loop line services to Manchester Victoria or Rochdale via Oldham Loop line services to Manchester Victoria or Rochdale via Oldham Loop line services to Manchester Victoria or Rochdale via Oldham Loop line services to Manchester Victoria or Rochdale via Oldham Loop line services to Manchester Victoria or Rochdale via Oldham Loop line services to Manchester Victoria or Rochdale via Oldham Loop line services to Manchester Victoria or Rochdale via Oldham Loop line services to Manchester Victoria or Rochdale via Oldham Loop line services to Manchester Victoria or Rochdale via Oldham Loop line services to Manchester Victoria or Rochdale via Oldham Loop line services to Manchester Victoria or Rochdale via Oldham Loop line services to Manchester Victoria or Rochdale
[48] Country Place County / District / Region / State Originally twinned with Date (Germany) Landsberg am Lech Bavaria Failsworth In 1745, "Bonnie Prince Charlie" stayed overnight at the Bull's Head public house.[50] The weaver, poet,
essayist and writer Benjamin Brierley was born in Failsworth and famed for his work in the Lancashire dialect. A statue of him was erected in 1898 in Queens Park, Manchester. There is a bronze statue of him was erected in 1898 in Queens Park, Manchester. There is a bronze statue of him was erected in 1898 in Queens Park, Manchester. There is a bronze statue of him was erected in 1898 in Queens Park, Manchester.
Lord Mayor of Manchester. [52][53] In present-day politics, Jim McMahon MP represents the Oldham Council Gary Mounfield is a musician who formerly with the band the Stone Roses during the Madchester period and later joined Primal Scream.
[54][55] Dale Longworth is a musician and producer with the electronic music group, N-Trance, which found fame with the record Set You Free.[56] James Mudriczki, Lowell Killen, Kevin Matthews, Tony Szuminski (and former member Neil McDonald) make up the line-up for the Alternative rock band Puressence.[citation needed] The Lancashire folk
singer Harry Boardman was born in Failsworth. The Broadcaster, journalist and cricketer Mike Atherton, was brought up in the Lord Lane area of town. The former Lancashire and England captain has a road, Atherton Close, named after him, opposite the cricket club in Woodhouses where he played in his youth.[57][58][59] Boxer Anthony Farnell, is
a former WBU Middleweight champion known as the Woodhouse Warrior.[60][61] Retiring at 25, Farnell has since become a fight trainer and owns a gym (Arnie's Gym) in nearby Newton Heath, where he has tutored David Barnes (BBBofC Light welterweight champion), Anthony Crolla (2006 ABA Lightweight champion)[62] and Frankie Gavin (2007 ABA Lightweight champion), Anthony Crolla (2006 ABA Lightweight champion)[62] and Frankie Gavin (2007 ABA Lightweight champion) [63] and Frankie Gavin (2007 ABA Lightweight champion) [64] and Frankie Gavin (2007 ABA Lightweight champion) [65] and Frankie Gavin (2007 ABA Lightweight c
World Amateur Boxing Championships gold medal winner).[63] Billionaire chemical engineer and businessman Jim Ratcliffe, chairman and chief executive officer (CEO) of the INEOS chemicals group, was born in Failsworth in 1952. Katie Zelem, professional footballer who plays as a midfielder for National Women's Soccer League club Angel City and
the England women's national team Former Manchester United footballer Ronnie Wallwork lived in Woodhouses. Supermodel Agyness Deyn was brought up in the area before her family moved to Ramsbottom. [64] Masters Athlete Mike Coogan, lived in Failsworth, attending St Mary's RC Primary School. He was the 2019 British, European and World
200m Champion.[65] Actress Amy James-Kelly (Coronation Street, Three Families) grew up in Failsworth Town Hall". www.oldham.gov.uk. Archived from the original on 28 September 2021. Retrieved 29 September 2021. ^ "Map Failsworth Town Centre"

metre to many kilometres, microwaves are very short (less than 12.5 centimetres). Microwaves do not make any heat themselves but only cause water molecules in food to vibrate. This vibration produces heat that cooks the food. This is why your food will come out of the microwave piping hot, when your utensils inside the oven stay much
cooler. Unpacking your microwave oven Before you use your microwave oven 1. Remove all the packaging. Do not remove the small piece of card from the right hand side of the cavity wall. This is called a wave-quide cover and allows the microwaves to pass through to cook the food. Please ensure you keep this cover clean at all time. 2. Safety
instructions Do not use the oven for any reason other than preparing food, such as for drying clothes, paper or any other non-food items, or for sterilising purposes. > Do not use the oven, such as papers, cookbooks and so on. > Do not cook any food surrounded by a
membrane, such as egg yolks, potatoes, chicken livers, ready meals and so on without piercing them several times with a fork. Safety instructions > Heat from the container may be transmitted to the container ma
steam or will be spitting. Never cover any container fully, always leave a gap for steam to escape. > Cooking utensils may become hot because of heat transferred from the heated food. This is especially true if plastic wrap has been covering the top and handles of the utensil. Safety instructions > Food containing a mixture of fat and water (for
example, stock) should stand for 30 to 60 seconds in the oven after it has been turned off. This is to allow the mixture to settle and to prevent it from bubbling when a spoon is placed in it, or a stock cube is added. > When heating or cooking food or liquid, remember that there are certain foods (such as Christmas puddings, jam and mincemeat) which
heat up very quickly. Safety instructions To reduce the risk of fire in the oven cavity: > Do not overcook food. > Do not leave the microwave oven unattended while you are using it and if using paper or plastic containers check regularly to ensure they do not ignite. > Remove wire twist-ties from bags before putting the bag in the oven. Safety
```

instructions Warning: it is hazardous for anyone other than a competent person to carry out any service or repair operation which involves the removal of a cover which gives protection against exposure to microwave energy. Warning: if the door or door seals are damaged, the oven must not be operated until it has been repaired by a competent

person. The door seals are located around the window on the inside of the door. Microwave oven installation > Select a level surface that provides enough space for the outlet vents. > A minimum clearance of 7.5cm is required between the oven. > Place the oven as far away from radios and TV's as possible. Using the oven may cause interference with the reception. Feature diagram J H I A. B. C. D. E. F. G. H. I. J. Control panel Turntable ring assembly Safety interlock latches Waveguide cover Oven cavity Ventilation slots Warning do not use the oven when empty or for warming plates. Turn table installation > Before first use, check that any securing tape has been removed from the glass tray and turntable ring assembly must always be used during cooking. > Do not place the food directly onto the glass tray, always place on or in suitable microwaveable cookware. Control panel The control panel to set the cooking power. 1. Power Selector Use this control to set the power level you wish to cook with, there are 5 power levels to choose from Power 2. Timer selector Use this control to set a visual time setting for the desired cooking time. Timer Up to 35 minutes per cooking session. How to use your microwave oven To start cooking time. Timer Up to 35 minutes per cooking session. How to use your microwave oven To start cooking time. Timer Selector to set a cooking or defrosting time. NOTE: As soon as the Timer Selector past 2 minutes and then return to the correct time. Cleaning and care > Before you clean the oven, turn it off and unplug it. > Keep the inside of the oven clean. When food or liquids stick to the oven walls, wipe with a damp cloth. We recommend that you do not use harsh detergent or abrasives. > On the right hand side wall of the cavity is the wave guide cover, microwaves are passed through this to enable your food to cook. It is important that this wave guide cover is kept clean at all times. To do this wipe with mild detergent and water, then dry. Cleaning and care > Regularly remove the glass turntable to clean it, and wash it in warm soapy water. > Regularly clean the turntable support and oven floor. Simply wipe the bottom surface of the oven with mild detergent and water, then dry. You can wash the turntable support in mild soapy water. > When removing the turntable support of the oven, make sure you put it back properly. > If the inside of the oven smells, put a cup of water with the juice and skin of one lemon in a deep microwave bowl. Important utensil information > Do not use paper covered wire twist-ties on plastic bags. > Do not use melamine dishes as they contain a material which will absorb microwave energy. This may cause the dishes to crack or burn, and will slow down the cooking speed. > Use only cookware that is approved to be used in a microwave oven. Connection to the mains supply WARNING-THIS APPLIANCE MUST BE EARTHED This appliance is designed to operate from a mains supply of AC 230- 240V ~ 50HZ. Check that the voltage marked on the product is fitted with a 13A plug complying with BS1363. Connection to the mains supply For UK use only - Plug fitting details (where applicable): As the colours of the wires in the mains lead of this appliance may not correspond with the coloured markings identifying the terminals in your plug, proceed as follows: The GREEN/YELLOW wire is the EARTH and must be connected to the terminal which is marked with the letter E or by the earth symbol or coloured GREEN or GREEN/YELLOW. Nonrewireable mains plug If your appliance is supplied with a non-rewireable plug fitted to the mains lead you will find that it incorporates a fuse, the value of which is indicated either on the base of the plug or on the fuse carrier. Should the fuse and ASTA approved fuse (conforming to BS1362) of the same rating. If the fuse cover is lost the plug must not be used until a replacement is obtained from an electrical supplier. Problem solving The microwave oven may cause interference by moving the radio, TV or equipment as far away from your microwave oven as possible. If the oven doesn't work > Make sure the mains plug is plugged in securely. If it is not, remove the plug from the socket, wait 10 seconds and plug it in again securely. > Check the premises for a blown circuit fuse or a tripped main circuit fuse or a tripped to faulty materials or workmanship the faulty product must be returned to the place of purchase. Refund or replacement is at the discretion of the store. The following conditions apply: • The product must be returned to the retailer with the original proof of purchase.
